Dedicated to a better Brisbane

THE 4810 MEETING OF THE BRISBANE CITY COUNCIL TO BE HELD IN THE COUNCIL CHAMBER, CITY HALL, BRISBANE, ON TUESDAY 24 NOVEMBER 2026 AT 1PM

AGENDA

1. APOLOGIES/LEAVE OF ABSENCE

2. CONFIRMATION OF MINUTES OF THE 4809 (ORDINARY) MEETING, HELD ON TUESDAY 17 NOVEMBER 2026

3. PUBLIC PARTICIPATION:

Name: Ms Carolyn Vincent
Topic: Kindness Out Loud

4. QUESTION TIME

5. CONSIDERATION OF COMMITTEE REPORTS:

Establishment and Coordination Committee -	**16 NOVEMBER 2026**
Public Transport Committee -	**17 NOVEMBER 2026**
Infrastructure Committee -	**17 NOVEMBER 2026**
City Planning, Suburban Renewal and Economic Development Committee -	**17 NOVEMBER 2026**
Environment, Parks and Sustainability Committee -	**17 NOVEMBER 2026**
Customer Services Committee -	**17 NOVEMBER 2026**
Community and the Arts Committee -	**17 NOVEMBER 2026**
Finance and City Governance Committee -	**17 NOVEMBER 2026**

6. PRESENTATION OF PETITIONS

7. GENERAL BUSINESS

8. QUESTIONS OF WHICH DUE NOTICE HAS BEEN GIVEN:

(Questions of which due notice has been given are printed as supplied and are not edited)

Submitted by Councillor Seal Chong Wah (received on 18 November 2026)

Q1. In relation to total rates revenue collected by Brisbane City Council, please list total Differential General Rates revenue collected by land use code in financial years 2023-24, 2024-25, and 2025-26.

Q2. In relation to total rates revenue collected by Brisbane City Council, please list total Separate Rates revenue (i.e. revenue from the Environmental Management and Compliance Levy, and the Bushland Preservation Levy) collected by land use code in financial years 2023-24, 2024-25, and 2025-26.

Q3. In relation to Council's most recent tree health review, please provide the estimated total number of trees in the following 5 health categories: Dead, Poor, Fair, Good, Excellent

Submitted by Councillor Jared Cassidy (received on 19 November 2026)

Q1. Please advise the number of staff currently employed in each of the following groups, branches and sections of BCC:

	Full Time	**Part-Time**	**Casual**	**Contract**	**Total FTE**
Public Transport Services					
Commercial & Contract Services					
Engineering & Asset Management					
Strategy and Network Services					
Transport Operations					
Infrastructure Services					
Asset Management					
Transport Assets & Operations					
Planning & Design					
Project Management					
Asphalt & Aggregates					
Construction					
Public Space Operations					
Safety Environment & Risk					
Fleet Solutions					
Strategy & Alignment					
Environment, Parks and Sustainability Services					
Waste & Resource Recovery Services					
Natural Environment, Water & Sustainability					
City Resilience					
City Planning and Economic Development Services					
City Planning & Design					
Development Services					
2032 Host City, Global Relations & Economic Partnerships					
Community and the Arts Services					
Arts & Community Development					
Sport & Recreation					
Customer Services					
Compliance & Regulatory Services					

	Full Time	Part-Time	Casual	Contract	Total FTE
Library & Customer Services					
Cemeteries					
Services Portfolio & Business Innovation					
Community Experience					
Corporate Services					
Business Engagement & Performance					
Strategic Finance					
Information Services					
People & Culture					
Corporate Property					
Strategic Procurement					
Support Services

Assurance Services					
City Communication					
City Legal					
Ethical Standards					
Governance, Council & Committee Services					
Lord Mayor's Administration & Engagement					

Q2. Provide a breakdown of the branch, group and division of the staff who have ended employment with Brisbane City Council since 19 May 2026, including voluntary and involuntary separation, contract completion or early termination by either party. Please provide headcount figures.

Q3. Provide a breakdown of the branch, group and division of the staff who have commenced employment with Brisbane City Council since 19 May 2026. Please provide headcount figures.

Submitted by Councillor Lucy Collier (received on 19 November 2026)

Q1. Please advise the total $ spent on labour hire across Council for FY's 2024-25 AND 2025-26, and 2026-27 FYTD, with each FY listed separately.

Q2. Please provide a list of properties that are owned by CBIC where Brisbane City Council is a tenant, including the address and total rent paid for FY'S 2024-25 and 2025-26, and 2026 FYTD only for those properties where such arrangements are in place.

Q3. List all locations sprayed by Pest Management Technicians in 2022-2026 (separate by year).

Submitted by Councillor Steve Griffiths (received on 19 November 2026)

Q1. Please advise the top 10 locations for collection of illegally dumped waste in the 2026 YTD, and 2025.

Q2. How many BCC owned facilities are currently vacant but not suitable for lease? Please list location and reason e.g. flood damage or renovation

Q3. How many BCC owned facilities are currently vacant and available to be leased by community organisations? Please list

Submitted by Councillor Charles Strunk (received on 19 November 2026)

Q1. Please advise via the below table how many bus stops were installed and de-commissioned in each financial year listed:

	2024-25	2025-26	2026-27 FYTD
How many bus stops were installed in:			
How many bus stops were de-commissioned in:			

Q2. Please advise the total number of bus stops operational in the BCC LGA

Q3. How many operational bus stops are currently not DDA compliant? Please provide location, stop number or unique identifier for each.

Submitted by Councillor Emily Kim (received on 19 November 2026)

Q1. How many bookings were made for spaces at Visible Ink in each year from 2022 – current?

Q2. How many staff work in the Visible Ink Youth Spaces? Provide employment type and position.

Q3. What was the Budget allocation for Visible Ink each financial year 2022-23 to 2026-27>

9. ANSWERS TO QUESTIONS OF WHICH DUE NOTICE HAS BEEN GIVEN:

(Answers to questions of which due notice has been given are printed as supplied and are not edited)

Submitted by Councillor Seal Chong Wah (from meeting of 17 November 2026)

Q1. In relation to the submissions received by the Council during the Short Stay Accommodation Local Law 2025 consultation carried out this year:

a. Did the Council receive a submission from Airbnb Inc. or its related entities?

b. Did the Council receive a submission from the International Olympic Committee or its related entities?

A1. *Yes.*

Q2. Has the Council or the Mayor's Office received direct communication from Airbnb, or the International Olympic Committee, or the Australian Olympic Committee, or the Queensland Government objecting to the proposed Short Stay Accommodation Local Law?

A2. *No.*

Q3. Does Airbnb's sponsorship of the Olympic Games include conditions which prevent Brisbane City Council from regulating short stay accommodation in the manner contemplated by the proposed Short Stay Accommodation Local Law?

A3. *No.*

Submitted by Councillor Jared Cassidy (from meeting of 17 November 2026)

Q1. Please list the types of environmental hazard prevention activities BCC has performed in the current FY

A1. *Brisbane City Council undertakes a comprehensive range of activities to prevent and mitigate environmental hazards and to prepare the community for them, including flooding, severe weather, bushfire, pollution, contamination and biosecurity threats. The types of activities Council has performed in the 2026-27 financial year to date are outlined below.*

Council provides free and accessible flood risk information to help residents and businesses understand their exposure to flooding and prepare for flood events. This information is available through the Flood Awareness Maps, FloodWise Property Reports and the Flood Information Hub. Between 1 July and 17 November 2026, the Flood Awareness Maps were viewed more than 960,000 times and more than 58,000 FloodWise Property Reports were downloaded. Council also gives residents direct access to its flood experts, who help them understand their flood risk and reduce its impacts.

To keep this information accurate, Council regularly updates its flood studies, models and mapping using the latest available data, so that they support both emergency response and long-term planning. After storms and flood events, Council collects flood data and investigates flood behaviour to improve its understanding of future risk and to inform mitigation. Council also maintains the systems used to store and share flood and rainfall data, and updates its stormwater asset registers and mapping systems to support disaster planning.

Council operates, and continues to expand, a citywide hydrometric monitoring network of rainfall, river and tidal gauges and sensors that provides real-time monitoring of flood conditions. This financial year, Council has continued to deliver, maintain and upgrade its telemetry and hydrometric gauges. This work includes a new rainfall gauge at Hardcastle Park, Hawthorne, and three new flood cameras at Kangaroo Gully Road, Bellbowrie; Edinburgh Castle Road, Wavell Heights; and Bowhill Road, Durack. Council is also progressing the upgrade of the entire hydrometric network to the new Flood Warning Network communication protocol. This upgrade is being implemented nationwide over the next four years and will require investment in new hardware to ensure the network is futureproofed, secure and resilient.

Data from this network is supplied to the Bureau of Meteorology and to warning systems, enabling flood forecasting, alerts and on-ground emergency coordination. Council issues creek flood alerts through its warning services and triggers safety signage and alerts in flood-prone areas. As at 11 November 2026, 243,617 residents were registered for Brisbane Severe Weather Alert. Council has also completed the grant-funded automation of stormwater backflow devices in Charlotte Street.

Council supports community preparedness for storm season by making sandbags available for collection from five locations. In October 2026, Council hosted the Emergency Services Expo, which attracted more than 10,000

attendees, and it has held 16 community education events. The Brisbane City State Emergency Service Unit has more than 620 volunteer members, who have responded to more than 2,240 storm-related tasks.

To protect public health, Council monitors sanitation and bacteria levels in recreational waterways, identifying risks and responding to them as they arise. This financial year, Council has collected 87 samples across 11 recreational sites. Council also maintains and manages more than 2,000 stormwater treatment assets citywide. It continues to implement its best-practice erosion and sediment control program, which reduces the amount of sediment washing off building and development sites.

At the catchment scale, Council has invested in the SEQ Resilient Rivers Initiative to undertake restoration works in the upper Brisbane River catchment. Council is carrying out targeted investigations to fill knowledge gaps and to ensure the persistence and resilience of Brisbane's key aquatic habitats, flora and fauna, including significant species such as the platypus. At Spine Street, Sumner, Council is continuing a federally funded project to rehabilitate 6.5 hectares of riparian habitat surrounding Bullockhead Creek. The site is known platypus habitat, and the project focuses on weed management and native revegetation. It is funded under Stream 1 of the Urban Rivers and Catchments Program 2023 and is being delivered over four years, from 2024-25 to 2027-28.

Council undertakes environmental protection regulatory services and development assessment to protect the community and the environment from air, noise and chemical pollution hazards. It also manages Council-owned contaminated land, including closed landfills, through risk-based investigation, environmental monitoring, maintenance and remediation. This protects the community and the environment from hazards such as asbestos, heavy metals, hazardous chemicals and waste. This work includes the continuing Brisbane Landfill Remediation project, which involves capping and revegetating sites.

To reduce bushfire risk, Council's specialist staff have completed 10 planned burns across 234.05 hectares and upgraded 156.5 kilometres of fire trails. Contractors have also undertaken 58.2 kilometres of firebreak maintenance.

Council has prevented hazardous situations involving trees through reactive and proactive tree maintenance. Council contractors have carried out this work in 128 parks and 670 streets, and Council's internal operations in 89 parks and 558 streets. Council also offers Visual Tree Assessments, which give owners of protected vegetation the opportunity to identify and mitigate risks.

Council manages hazards arising from wildlife in several ways. It maintains a vegetation buffer for flying-foxes at Edenbrooke and has begun vegetation management to create a buffer between residential areas and flying-foxes at 7th Brigade Park. It has deployed swooping bird and education signage across the city for wildlife events. It has also installed signage to reduce the impact of large vertebrate fauna, such as deer, on road users.

Council has delivered an extensive program of works in response to fire ants:

- *training on how to work safely in locations with fire ants*
- *training Council staff and volunteers to bait fire ants when they are observed*
- *broadscale treatment of Council land and sporting fields, including reactive responses*
- *an aerial baiting program treating all Council land over 10 hectares, as well as Council leased land and sporting fields.*

Council continues to advocate for ongoing funding of the National Red Imported Fire Ant Eradication Program and for free fire ant bait to be provided to landholders.

Council's broader biosecurity activities include:

- *preparing reports to position Council to respond to H5N1 avian influenza*
- *producing biological controls for aquatic weeds, which threaten infrastructure and drinking water supplies*
- *beginning surveys for Category One species, such as the freshwater golden clam, at the request of Biosecurity Queensland*
- *trialling the eradication of yellow crazy ants at The Gap*
- *using detection dog surveys and eDNA analysis to keep Moreton Island free of cane toads.*

Council also manages weeds on its land to protect biodiversity, including responding to weed seed spread after flooding events. It has begun its annual Wipe Out Weeds Program to remove environmental weeds from natural bushland reserves.

Given the broad scope of the question, the above information is a general and non-exhaustive list of the types of activities that various work areas of Council have undertaken in the current financial year and on an ongoing basis.

Q2. Please list the types of environmental hazard prevention activities BCC has had performed by contractors in the current FY

A2. *Council Officers advise that this information cannot be provided within the timeframe required by the Meetings Local Law 2001.*

Q3. Please detail the number of staff employed to carry out planned hazard reduction burns on behalf of Council - if there are no dedicated staff employed for this task, please detail the number of staff who are trained and regularly carry out these tasks.

A3. *123 Council staff are employed to carry out planned hazard reduction burns as part of their ordinary duties. A further 39 Council staff have volunteered to be trained and participate in addition to their ordinary duties.*

Submitted by Councillor Lucy Collier (from meeting of 17 November 2026)

Q1. Please provide details of the total amount of fine and infringement revenue collected by Brisbane City Council in the 2024-25 and 2025-26 FYs, and the

2026 FYTD, broken down by all infringement types (i.e. parking fines, animal infringements, illegal dumping, overgrown land, noise etc)

A1. *This data is not available in the format requested.*

Q2. For the 2024-25 and 2025-26 FYs, and the 2026 FYTD, please detail the number and total dollar amount of fine and infringements issued by Brisbane City Council for illegal dumping (littering and dumping)

A2.

Financial Year	*Total PIN Value*	*PIN Volume*
2024-25	*$532,558*	*684*
2025-26	*$1,150,678*	*1,770*
2026-27 FYTD	*$ 367,721*	*542*

Q3. For 2026 YTD, please advise the number of claims received by Council for vehicle damages caused by potholes on Council roads, the number of claims settled and paid, and the sum paid out.

A3. *In the calendar year 2026 to date, 300 claims have been received and 97 claims paid out.*

Submitted by Councillor Steve Griffiths (from meeting of 17 November 2026)

Q1. Please advise the tonnage of waste deemed illegal dumping collected by council staff in the 2025-26 FY and the 2026-27 FYTD, broken down by Council and non-Council collection sites?

Q2. Please advise the tonnage of waste deemed illegal dumping collected by council staff in the 2025-26 FY and the 2026-27 FYTD, broken down by suburb?

A1 and A2.

This data is not available in the format requested as Council crews do not weigh each load at the point of collection.

Q3. Please advise the total amounts Council has contributed to each of its subsidiary companies, as well as the revenue received from each, in the 2025-26 FY and 2026-27 FYTD listed separately by both company and FY.

A3. *This information is made publicly available in the Annual Financial Statements for Council's subsidiary entities.*

Submitted by Councillor Charles Strunk (from meeting of 17 November 2026)

Q1. Please provide monthly patronage numbers to each Council Pool from February 2025 to current.

A1.

Q3. How many contacts has the call centre received each year in relation to the maintenance of pool, water park, splash pad, water play zone etc. equipment, broken down into Request for Service, Advice, Information, etc?

A3. *This question cannot be answered the way that it is written as no date range is provided.*

Submitted by Councillor Emily Kim (from meeting of 17 November 2026)

Q1. How many contacts has the call centre received each year in relation to illegal dumping on Council owned land/sites in 2026 YTD, broken down into Request for Service, Advice, Information, etc?

A1. *This question cannot be answered the way that it is written as it requests annual data for a calendar year which is not complete.*

Q2. How many contacts has the call centre received each year in relation to illegal dumping on non-Council owned land/sites in 2026 YTD, broken down into Request for Service, Advice, Information, etc?

A2. *This question cannot be answered the way that it is written as it requests annual data for a calendar year which is not complete.*

Q3. How many dumped tyres were collected by council staff in the 2025-26 FY and the 2026-27 FYTD, broken down by Council and non-Council collection sites?

A3. *2025-26: 3,418*
2026-27 FYTD: 578.
