The Australian Defence Force offers a huge range of careers in the Navy, Army and Air Force, and the number of roles and eligibility requirements can sometimes be confusing!

We will cover the following:

- The application process
- Education requirements and entry options
- Pathways for a diverse range of prospects
- A chance to speak one on one to current serving ADF members
- Priority jobs and roles which are currently recruiting
- Army Reserve opportunities

As restrictions only allow for 18 attendees per session, we kindly advise that students only bring one parent or guardian. Please also ensure that both parties are registered via the links above.
