Experienced: 12 Week Internship

Internships are the best way for you to gain practical work experience, make a valuable contribution to real businesses and open the door to future employment opportunities.

Our internship program starts with preparation - including a full pre-internship skills enhancement program:

Resume Pimping

LinkedIn Profile Optimising

Interview Success Techniques

We then conduct a full Job Matching Service – ensuring your talents, interests & work you're passionate about is celebrated in the workplace of the Host Employer we match you with. Daily logbook entries (via mobile app) and weekly monitoring interviews are then undertaken after you commence with both you + your Host Employer to ensure the internship program is an awesome experience for all.

The internship program is 3 full days per week for 12 weeks and will provide you an opportunity to utilise, in the workforce, the skills and knowledge you've developed throughout the Diploma. In addition to being awarded your Diploma qualification, you will also receive a Certificate of Completion for your internship.

For Employers, taking on an intern adds an enthusiastic, engaged and diverse resource to their business and via tapping into a pool of freshly qualified talent helps them identify their leaders of tomorrow.

Why do an internship?

Internships are the best way to expose you to a Social Media Marketing workplace and workplace culture. Your Diploma will give you the skills and knowledge but an internship allows you to apply your learning in a real-life situation. Internships give you practical experience and can often lead to securing employment.

The reality is that most businesses want to hire people who already have some sort of professional experience, so the challenge for all graduates is getting that first opportunity. Internships are the perfect way to gain that first crucial stint in your profession that will improve your employability dramatically. A high number of interns secure full-time positions with their internship host company.

Employed: Job Opportunities & Salary Ranges

The whole goal of this program is to get you employed within this in demand industry, so our support and assistance doesn't end with the completion of your Qualification & Internship. Whilst we target internship Host Employers who have an appetite for taking on a new staff member, we recognise sometimes there isn't a fit or circumstances change. Subsequently all students who complete their internship are offered a further 3 month job placement support program. Our mission is to ensure you get started in your Social Media Career!
