OUR PURPOSE
Demonstrating the value of desert and remote Australia
We are based in a vibrant place where the oldest living cultures on the planet thrive; where the people are resilient and innovation is a way of life. Desert and remote Australia is unique and we share that value with the world.

Connecting people, knowledge and opportunities
Desert and remote Australia and its knowledge base is a big place to navigate and DKA can be a guide. We create meaningful connections by bringing ideas and resources together.

Looking to the future
We innovate and incubate. We seek opportunities to grow ideas into realities, creating lasting, positive change.

OUR VALUES
Work together
We build high-performing and positive teams, and we bring our commitment to teamwork into our external relationships and networks to maximise our shared impact.

Be creative – innovate!
We approach our work with creativity and innovation; we engage with possibilities and new ideas, creating an agile and responsive organisation.

Stay focused
There are many different things we could do; we are focused and engage purposefully with everything we do.

Come from strength
We work with our strengths and the strengths of those we engage with to create positivity and growth. We live and work across languages and cultures and use that experience as the foundation of our work.

Knowledge is powerful
We have a role in collecting, curating and sharing the knowledge that exists in desert and remote Australia.
