SUPPLY OF ADVERTISING MATERIAL (PC OR MAC)

PRINT

Material can be emailed as a PDF file created using the specifications described below:

- Fonts must be outlined or embedded
- Advertisements must be supplied with a colour laser proof at 100% of size.
- Before saving file as a PDF, ensure all images and spot colours are processed CMYK (not RGB, lab colour or indexed colour).
- Files to be supplied at a minimum of 300 DPI.

Placing files

Every file placed within postscript must be either a TIFF or an EPS (no JPEG or PICT) and be CMYK. Rotations should be exact for example 90 degrees, 180 degrees.

TIFF files should have no LZW compression.

Proofing

- A colour laser (composite proof) must be supplied with electronic file
- A colour laser must accompany any files which need to be resupplied
- Proofs must be sized at 100%

WEBSITE AND E-NEWS

- JPEG and GIF only (no EPS, PDF or Flash).
- Animated GIF will work for most browsers (except Outlook '07). As some users may see the animation, any pertinent information should be on the first slide.
- Resolution: min 72dpi.
- Supply relevant click-through link with artwork.

Advertisements not adhering to this specification will not be accepted.

Cancellation deadline is equivalent to booking deadline. A full cancellation fee will apply after this date.

ACCEPTED MEDIA TRANSPORT
