Company

Da oltre 60 anni Fima Carlo Frattini realizza rubinetteria di alta qualità, durevole e capace di valorizzare ogni progetto. Innovativa e creativa, combina eccellenza del design, qualità produttiva, ricerca e crescita internazionale.

For over 60 years, Fima Carlo Frattini has delivered high-quality tapware that lasts and adds value to every project. Constantly evolving through creativity, design and technology, it combines design excellence, quality production, research and international growth.

Care

La cura è evidente in ogni prodotto Fima, dove un design meticoloso e un servizio attento garantiscono qualità, comfort e facilità d'uso. Pratiche sostenibili guidano la produzione, proteggendo l'ambiente e creando rubinetteria duratura e affidabile.

Care is reflected in every Fima product, where meticulous design and thoughtful service ensure quality, comfort, and ease of use. Sustainable practices guide production, protecting the environment while creating long-lasting, reliable tapware.

Elegance

L'eleganza definisce l'approccio al design di Fima. Ogni prodotto bilancia forma, proporzioni e texture, combinando materiali e finiture per creare un'estetica raffinata e sofisticata, elegante senza sforzo e di lusso.

Elegance defines Fima's approach to design. Each product balances form, proportion, and texture, blending materials and finishes to create a refined, sophisticated aesthetic that feels effortless yet luxurious.

Innovation

L'innovazione caratterizza ogni prodotto Fima. Tecnologie avanzate e materiali accuratamente selezionati si combinano per creare soluzioni funzionali, durevoli, eleganti e rispettose dell'ambiente, migliorando l'esperienza quotidiana.

Innovation shapes every Fima product. Advanced technologies and carefully selected materials combine to create solutions that are functional, durable, beautiful, and environmentally conscious, enhancing the everyday experience.

A modern bathroom display featuring a curved ceiling with several showerheads of different designs. A central water feature with a circular basin and reeds is illuminated. The floor is made of large, light-colored tiles. The overall atmosphere is clean and contemporary.

& Ingiro 316 Freestanding Fixed Shower Sand Grey - F5973SG

stecco

Lorenzo Damiani Design

Stecco è la nuova proposta della collezione Ingiro, un docciaino freestanding versatile e giocoso, posizionabile ovunque per portare l'acqua dove serve. Sostenuto da due sottili gambe anteriori e con il corpo allungato a contatto con il terreno, si mimetizza negli spazi esterni come un "animale domestico da giardino".

Il sistema di apertura e chiusura a pedale ereditato da Ingiro ne garantisce la praticità, mentre una serie di accessori intercambiabili, tra cui tavolo, portasapone, portasciugamani e supporto doccia, unisce funzionalità e stile. Realizzato in edizione limitata per il Salone del Mobile, Stecco rappresenta l'approccio creativo di Fima alle docce outdoor, coniugando design, flessibilità ed eleganza.

Stecco is the latest addition to the Ingiro collection, a playful and versatile freestanding shower that can be positioned anywhere, taking water wherever you need it. Supported by two slender front legs and an elongated body that touches the ground, it blends into outdoor spaces like a "garden pet."

The foot-operated on/off system from Ingiro ensures practical use, while a range of interchangeable accessories, including a table, soap dish, towel holder, and hand shower holder, adds both functionality and style. Limited edition for the Salone del Mobile, Stecco exemplifies Fima's creative approach to outdoor showers, combining design, flexibility, and elegance.

ingiro

Lorenzo Damiani Design

Ingiro unisce massima praticità e completa libertà di posizionamento. L'ergonomia studiata e il collegamento idrico flessibile permettono di fare la doccia ovunque arrivi il tubo, mentre la base in cemento garantisce stabilità. È disponibile in tre versioni, colonna doccia free-standing, doccino free-standing e saliscendi a parete, tutte dotate di doccino con molteplici microgetti per un'esperienza avvolgente.

Semplice, versatile e curato nei dettagli, Ingiro si adatta con eleganza agli spazi esterni, valorizzato dalle diverse finiture: acciaio, bianco avorio, blu indaco, verde agave, rosso borgogna, grigio sabbia e nero opaco. Accessori opzionali, come portasciugamani e piano circolare, trasformano il doccino free-standing in un pratico servomuto da giardino.

Ingiro combines extreme practicality with total positioning freedom. Its ergonomic design and flexible water connection allow you to shower anywhere the hose reaches, while the concrete base ensures stability. It is available in three versions, free-standing column, free-standing hand shower, and wall-mounted sliding rail, all featuring a hand shower with multiple micro-jets for an enveloping experience.

Simple, versatile, and thoughtfully designed, Ingiro adapts to outdoor spaces with elegance, enhanced by a range of finishes: steel, ivory white, indigo blue, agave green, burgundy red, sand grey, and matt black. Optional accessories, such as a towel holder and circular tabletop, transform the free-standing hand shower into a functional outdoor valet.

out·side

Davide Vercelli Design

Grazie al design essenziale, Out.side si inserisce con eleganza in qualsiasi contesto, dal giardino di casa alla SPA di un hotel, unendo l'estetica di un elemento d'arredo alla solidità di un prodotto pensato per durare nel tempo. L'acciaio 316 garantisce resistenza agli agenti atmosferici e alla corrosione, anche in ambienti salini.

L'esperienza doccia è personalizzabile con soffione o doccetta, disponibili in tre getti: pioggia, cascata e nebulizzato. Le maniglie, disponibili in acciaio, bianco avorio, verde agave, blu indaco, rosso borgogna, grigio sabbia e nelle versioni in marmo bianco e nero, combinano funzionalità ed eleganza. Il fissaggio a pavimento con nuovo sistema di innesto facilita installazione, rimozione e regolazione della colonna.

With its essential design, Out.side fits elegantly into any setting, from a home garden to a hotel spa, combining the look of a refined furnishing element with the durability of a product designed to last. Made from 316 steel, it resists atmospheric agents and corrosion, even in saline environments.

The shower experience is customizable with a shower head or hand shower, available in three jets: rain, waterfall, and mist. Handles are available in steel, ivory white, agave green, indigo blue, burgundy red, sand grey, and in white and black marble, combining functionality with elegance. The floor fixing with a new coupling system simplifies installation, removal, and adjustment of the column.

still 316

still 316

Davide Vercelli Design

Due dei modelli di maggior successo, Still e Switch on, entrano nella nuova divisione Fima Outdoor in una veste completamente rinnovata in acciaio 316, garantendo prestazioni elevate e durabilità nel tempo.

Still 316, soffione innovativo dal design semplice e lineare, trasforma l'ambiente in un'oasi di relax grazie a tre aeratori orientabili individualmente, offrendo massima personalizzazione del getto.

Switch on 316 eredita le linee e le funzionalità di Switch, con un corpo a incasso dal ridotto ingombro per un design essenziale. Nei modelli doccia e vasca, il bottone diverter seleziona l'uscita desiderata, mentre i comandi del flusso e della temperatura permettono un utilizzo semplice e intuitivo. La gamma include anche finiture Rosso Borgogna e Grigio Sabbia, arricchendo le possibilità espressive dei miscelatori e degli incassi.

Two of FIMA's most successful models, Still and Switch on, join the new Outdoor division in a fully renewed version made from 316 stainless steel, ensuring high performance and long-lasting durability.

Still 316, an innovative shower head with a simple and linear design, transforms any space into a place of relaxation. Its three individually adjustable aerators provide maximum customization of the water flow.

Switch on 316 inherits the lines and functionality of Switch while featuring a new concealed body with a minimal footprint for an essential design. In the shower and bathtub models, the diverter button selects the desired outlet, and the flow and temperature controls ensure simple, intuitive use. Burgundy Red and Sand Grey finishes further expand the expressive possibilities of the mixers and recessed fittings.

Outdoor collection including Ingiro, Outside & Stecco Products

The background of the entire page is a photograph of several long, thin, dried green leaves, possibly eucalyptus, arranged diagonally from the top right towards the bottom left. The leaves are a muted sage green color and have a slightly textured, papery appearance. They cast soft, dark shadows onto the light-colored surface beneath them. In the center of the image, the word "Abey" is written in a large, white, sans-serif font. To the upper right of the "y" in "Abey", the letters "AU" are written in a smaller, white, sans-serif font.
