fima | CARLO FRATTINI®
rubinetterie

Abey^{AU}

Company

Da oltre 60 anni Fima Carlo Frattini realizza rubinetteria di alta qualità, durevole e capace di valorizzare ogni progetto. Innovativa e creativa, combina eccellenza del design, qualità produttiva, ricerca e crescita internazionale.

For over 60 years, Fima Carlo Frattini has delivered high-quality tapware that lasts and adds value to every project. Constantly evolving through creativity, design and technology, it combines design excellence, quality production, research and international growth.

Care

La cura è evidente in ogni prodotto Fima, dove un design meticoloso e un servizio attento garantiscono qualità, comfort e facilità d'uso. Pratiche sostenibili guidano la produzione, proteggendo l'ambiente e creando rubinetteria duratura e affidabile.

Care is reflected in every Fima product, where meticulous design and thoughtful service ensure quality, comfort, and ease of use. Sustainable practices guide production, protecting the environment while creating long-lasting, reliable tapware.

Elegance

L'eleganza definisce l'approccio al design di Fima. Ogni prodotto bilancia forma, proporzioni e texture, combinando materiali e finiture per creare un'estetica raffinata e sofisticata, elegante senza sforzo e di lusso.

Elegance defines Fima's approach to design. Each product balances form, proportion, and texture, blending materials and finishes to create a refined, sophisticated aesthetic that feels effortless yet luxurious.

Innovation

L'innovazione caratterizza ogni prodotto Fima. Tecnologie avanzate e materiali accuratamente selezionati si combinano per creare soluzioni funzionali, durevoli, eleganti e rispettose dell'ambiente, migliorando l'esperienza quotidiana.

Innovation shapes every Fima product. Advanced technologies and carefully selected materials combine to create solutions that are functional, durable, beautiful, and environmentally conscious, enhancing the everyday experience.

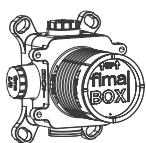

The image shows a sophisticated bathroom display. In the center, a circular water feature with a pool of water is surrounded by tall, thin grasses. Above the water feature, several modern showerheads are displayed, including a large circular one, a smaller one, and a handheld showerhead. The background is a curved wall with a large window or glass partition. The floor is made of light-colored stone tiles. The overall lighting is warm and modern.

fima | CARLO FRATTINI
rubinetterie

Il Fimabox di Fima Carlo Frattini è un sistema da incasso progettato per un'installazione e un utilizzo semplici. Con il suo design universale, è rapido e intuitivo da assemblare, offrendo agli installatori la massima flessibilità e riducendo i tempi di lavoro in cantiere. L'involucro in plastica impermeabile e il corpo flottante in ottone evitano perdite e vibrazioni, garantendo un funzionamento silenzioso e una protezione duratura delle pareti. Resistente e anticorrosione, assicura affidabilità a lungo termine con una manutenzione minima.

The Fimabox by Fima Carlo Frattini is a built-in system designed for easy installation and use. With its universal design, it's quick and intuitive to assemble, giving plumbers total flexibility and saving valuable time on site. The watertight plastic casing and floating brass body prevent leaks and vibration, ensuring silent operation and long-term wall protection. Durable and corrosion-resistant, it offers long-lasting reliability with minimal maintenance.

DAVIDE VERCELLI DESIGN

Davide Vercelli esplora la gestualità legata alla fruizione del rubinetto con So, un prodotto che supera i limiti del classico miscelatore dal design studiato per favorire la regolazione del volume d'acqua e la scelta della temperatura preferita.

So si è aggiudicato tre prestigiosi premi internazionali: Design Plus powered by ISH 2019 per il suo connubio vincente di tecnologia e design, il Good Design Award 2019- il più autorevole concorso internazionale di design in Giappone - nella categoria "Bathroom and Wet Area" e il German Design Award 2020- una delle più rinomate competizioni di design a livello mondiale - nella sezione "Excellent Product Design". Queste onorificenze testimoniano il costante impegno di FIMA Carlo Frattini nella ricerca e nello sviluppo di soluzioni uniche che combinano estetica evoluta a design e funzionalità.

Davide Vercelli explores the gestures associated with using a tap with SO. This product goes beyond the limits of the classic mixer: its design favours the regulation of water volume and the choice of preferred temperature.

SO has won three prestigious international awards: "Design Plus powered by ISH 2019" for its winning combination of technology and design, the "Good Design Award 2019" (the most prestigious international design competition in Japan) in the 'Bathroom and Wet Area' category, and the German "Design Award 2020" (one of the world's most renowned design competitions) in the 'Excellent Product Design' section. These honours attest FIMA Carlo Frattini's ongoing commitment to researching and developing unique solutions that combine advanced aesthetics with design and functionality.

FINMA SO

FIMA SO

La collezione SO propone una linea completa e versatile di rubinetteria, progettata per coniugare eleganza e innovazione. Le forme studiate permettono di personalizzare l'esperienza d'uso, unendo funzionalità e raffinata estetica. Con diverse opzioni di maniglie e finiture, la collezione favorisce accostamenti creativi, permettendo a designer e utenti di dare al bagno uno stile unico e distintivo.

The SO collection offers a complete and versatile line of tapware, designed to balance elegance and innovation. Its thoughtfully crafted forms allow users to customise the bathroom experience, combining functionality with refined aesthetics. With multiple handle options and finishes, the collection encourages creative pairings, letting designers and homeowners personalise their spaces with unique style and flair.

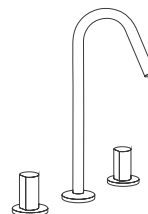

Hob Mounted Spouts

La gamma SO propone miscelatori lavabo a tre fori, ideali per diversi stili di bagno. Tre bocche regolabili offrono look distintivi, dal design minimale a soluzioni più alte per lavabi a ciotola o semi-incassati. La varietà di finiture permette infinite possibilità di personalizzazione.

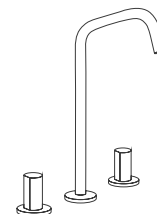

The SO range offers three-hole basin mixers designed for versatile bathroom styles. Three adjustable spout options provide distinctive looks, from sleek minimalism to taller designs for bowl or semi-recessed basins. A range of finishes allows for nearly endless personalisation.

Mix of Glossy and Satin S2 and S4 Glass Handles

FIWA SO

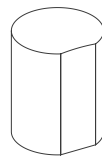

Design Your SO Tapware

Le maniglie SO sono il fulcro della collezione, disponibili in 27 finiture e materiali per infinite possibilità di personalizzazione. Ogni maniglia può essere abbinata al corpo miscelatore per creare uno stile unico. La Aqua Collection propone maniglie in vetro lucido o satinato, con delicate sfumature e un tocco di luce elegante.

SO's handles are the centerpiece of the collection, available in 27 finishes and materials for almost endless customisation. Each handle can be paired with the mixer body to create a personalised style. The Aqua Collection adds polished or satin glass handles, offering subtle color nuances and reflective glamour.

SO Handles

Finish availability varies by handle size. S1 handles are available in Galvanic, Colours, PVD and Material finishes (excluding glass). S2 and S3 handles are available across the full finish range.

Acqua e benessere. Un connubio che ci ha spinto ad immaginare per voi un percorso fatto di gesti, emozioni e poesia, per guidarvi alla costruzione del vostro personale momento di Wellness.

Water and wellness. A combination that inspires us to imagine path made of gestures emotions and poetry, to guide us in the construction of our personal moment of Wellness.

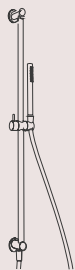

Pearlator Technology

Fima Carlo Frattini esalta comfort ed efficienza con la tecnologia Pearlator. Integrando aria nel getto d'acqua, l'aeratore genera migliaia di micro-bolle che creano un flusso morbido e vellutato come una perla. Questo non solo offre una sensazione più lussuosa e delicata rispetto a una doccia tradizionale, ma riduce anche gli schizzi e consente un risparmio idrico senza compromettere le prestazioni. Una soluzione innovativa che racchiude benessere, sostenibilità e precisione del design in un unico gesto.

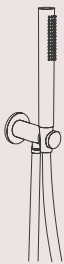

Fima Carlo Frattini enhances comfort and efficiency with its Pearlator technology. By infusing air into the water stream, the aerator produces thousands of micro-bubbles that create a soft, pearl-like flow. This not only delivers a more luxurious and gentle sensation compared to a standard shower, but also reduces splashing and saves water without compromising performance. It's an innovative feature that combines wellbeing, sustainability, and design precision in one.

Installation Note: All shower units are supplied with a male threaded connection.
