

**Woodlawn Mine 2023 – Complaints Register**

Schedule 6, Condition 11(a), requires that a complaints register be updated on a monthly basis and be made publicly available on the Develop Woodlawn Mine Project website.

Complaint number	Date/Time	Complaint type	Details	Action Taken / Follow Up
2023-001	19/07/2023	Anonymous query/concern	Anonymous query/concern regarding methane in the underground workings. The concern regarded potential venting of methane from the underground mine workings and whether or not it was monitored.	Response to the EPA advice is that there is no venting of methane occurring from the underground but should venting be necessary it would be undertaken following prior consultation with the EPA. No further action is required. No further complaints were received for the month of July

Note: As at 31/12/2023 – only complaint received was 19/07/2023
