# Working with Defence to maintain Australia's assets...

## DEFENCE CAPABILITY

Duratec Australia is a solutions-driven contractor with a Defence Division dedicated to providing whole-of-life infrastructure services.

Defence's capability is intrinsically linked to an efficient and effective Defence Estate. We partner with the Department of Defence to ensure the Defence Estate can operate at peak performance.

Our services include the construction, upgrade and maintenance of:

- Marine Structures
- Bridges and Tunnels
- Water and Waste Water Facilities
- Building Refurbishment and Restoration
- Fuel Services
- Electrical Infrastructure
- Accommodation, Offices, Workshops and Hangars

## DEFENCE PEOPLE

Duratec has the people, knowledge and experience to successfully deliver the full range of Defence Estate infrastructure projects, from initial condition assessments of existing assets to maintenance, upgrades and new construction projects.

Working together with the Department of Defence, Duratec's state-based Defence divisions have demonstrated the ability to deliver sensitive, remote, secure and technically-challenging projects. All while upholding the reputation of the Department of Defence within the community and between government sectors.

Our team's previous involvement on Defence Estate projects enables us to easily establish relationships with staff, key stakeholders and subcontractors to successfully deliver and mitigate the Defence Estates key risks.

## DEFENCE SERVICES

Duratec provides a 360° service offering for the whole-of-life cycle of Defence infrastructure.

### CONSTRUCTION

We are able to build entirely new facilities to meet future strategic demands or completely replace a structure that has reached its end of serviceable life.

### ASSESSMENT

Our in-house engineers provide rapid and accurate diagnosis of conditions relating to Defence infrastructure. These include condition assessments, and detailed reports.

### UPGRADES

Duratec is committed to supporting Defence in upgrading its infrastructure that has reached or is nearing the end of its design life.

### MAINTENANCE

We offer the complete range of Estate upkeep services including responsive, scheduled and performance-based maintenance programs, design and construct services and regular maintenance.
