SURVEYING

Our Technical Division consists of a team of specialist engineers who conduct technical condition assessments on a wide range of structures.

Once the survey is complete, the client is issued with a report that identifies the root causes of the problems, provides innovative fit-for-purpose solutions and realistic budget estimates for the cost of the remediation.

ACCESS SOLUTIONS

Our Specialist Access Division offers a wide range of access solutions for even the most inaccessible structures.

Rope access is regarded as one of the safest forms of access as well as being fast and cost effective in comparison to other methods such as scaffolding and swing stage.

We provide specialist access services right across the board from initial condition assessments to major remediation projects.

REMEDiation

Our team of refurbishment experts have many years of experience in:

- Concrete Repairs
- Expansion Joint Remediation
- Facade Refurbishments
- Waterproofing
- Flooring Systems
- Specialist Coating Systems
- Structural Strengthening
- General Building Maintenance
- Storm and Emergency Repairs

ASSET OWNERS

- Property Managers
- Body Corporates
- State and Territory Governments
- Schools, Colleges and Universities
- Hospitals
- Hotels
- Shopping Centres
- Car Parks

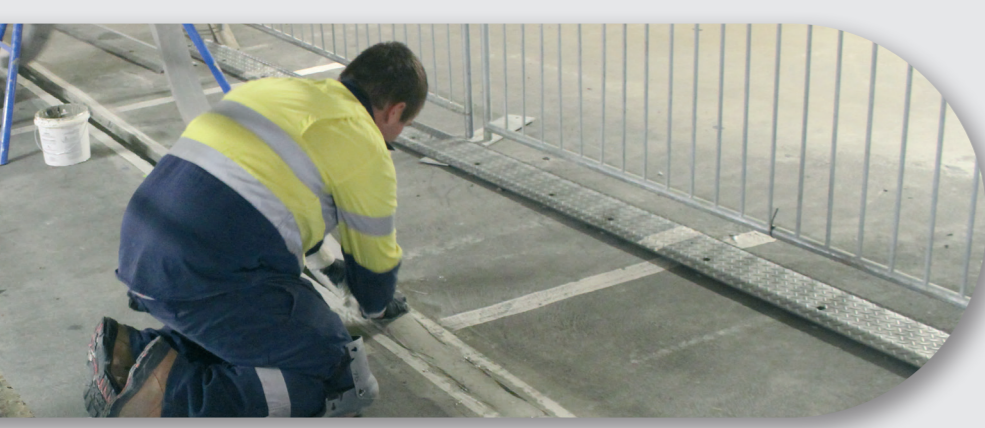

OVERVIEW

IF CONCRETE AND STEEL STRUCTURES ARE NOT MAINTAINED, DETERIORATION CAN BECOME A MAJOR ISSUE AND EACH YEAR MILLIONS OF DOLLARS ARE LOST TO THE DESTRUCTIVE EFFECTS OF CORROSION.

DURATEC PROVIDES PROPERTY MAINTENANCE SERVICES TO A WIDE RANGE OF ASSET OWNERS SO WE UNDERSTAND THEIR CONCERNS SUCH AS PUBLIC SAFETY AND LIABILITY ISSUES AND MINIMISING DISRUPTION TO THEIR EVERYDAY OPERATIONS.

FROM A CONCRETE CONDITION ASSESSMENT TO A FULL FACADE REFURBISHMENT WE UNDERSTAND THE SYMPTOMS AND ROOT CAUSES OF STRUCTURAL DETERIORATION AND COMBAT THIS WITH INTELLIGENTLY ENGINEERED SOLUTIONS, TAILOR-MADE MATERIAL SELECTION AND QUALITY INSTALLATION.

ABOUT DURATEC

Duratec is a solutions-based contractor specialising in the protection and remediation of steel and concrete structures.

Incorporated in May 2010, our team comprises specialist remediation engineers and contracting professionals who have worked in the industry for many years.

LOCATIONS

Our offices in Perth, Kalgoorlie, Karratha, Port Hedland, Darwin, Melbourne, Sydney, Brisbane and Adelaide service the mining, oil and gas and marine industries, along with government assets and commercial infrastructure.
