# COOPERS STADIUM MAINTENANCE REPAIRS

## MAINTENANCE - CONCRETE REPAIR

### PROJECT

Coopers Stadium Maintenance Repairs

### CLIENT

Adelaide Venue Management  
Rob Cutillo 0467 709 391

### DURATEC CONTACT

Jonathan Barrett 0428 048 675

### DESCRIPTION

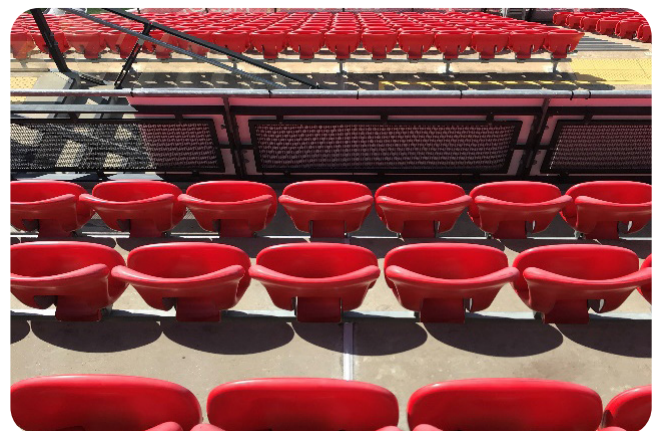

Coopers Stadium is a world-class multi-use facility located 5 minutes from Adelaide's CBD. It is home to the A-League's Adelaide United Football Club.

Duratec was engaged to undertake the following scope of works:

- ▶ Repair all joints and cracks within the slabs of the stands and upper bowl.
- ▶ Removal of existing grout and re-grouting including repair of minor spalling on face of raker beam.
- ▶ Removal of existing flexible sealant, joint preparation, clean out, prime, install backing rod and install new sealant.
- ▶ Repair the ends of exposed prestressing strands at the end of the seating plats to limit any further corrosion.

### HIGHLIGHTS

- ▶ Continual stakeholder engagement to complete works with minimal disruption to A-League game schedules.
- ▶ Coordination with the clients engineer to ensure slab joint repairs were remediated with the best outcome for all stakeholders.
