PROJECT SUMMARY

Regal Theatre is a State Heritage listed iconic attraction in the City of Burnside, located 4.7kms from the Adelaide CBD.

SCOPE OF WORKS

- Removal of the topcoat of paint and external render to expose the concrete surface
- Removal of loose and drummy concrete
- Repair of cracks in the concrete using a low-pressure epoxy crack injection
- Installation of additional steel reinforcing and ligatures
- Patch repair sections of concrete with a high-strength repair mortar
- Painting and waterproofing of the front elevation sills

HIGHLIGHTS

- Continual stakeholder engagement to complete works with minimal disruption to scheduled shows.
- Working on a main arterial road, minimising disruption to traffic
- Document and perform repairs to front elevation

Undertaking concrete repairs

Rebuilding of concrete plinth
