

MEPAU in the Mid West

Mitsui E&P Australia (MEPAU) is a WA-based energy provider with two facilities in the Mid West. MEPAU is significant contributor to the development of a sustainable supply of energy for the nation and in addition to maintaining its energy resource portfolio, is pursuing new low carbon energy and carbon abatement opportunities.

Mid West photo wins 'People' category in national photo competition

Mitsui E&P Australia's photo 'Conversations over the fence' has won the 'People' category of the In.Site Photographic Awards.

The competition is to highlight the environment, community and people that surround and make the natural gas industry possible, with photos to showcase the strong and constantly growing relationship between the industry the areas where operations take place.

The photo, taken by MEPAU contractor Travis Hayto, highlights the energy industry's efforts to consult with communities in the Shire of Irwin.

MEPAU has requested the \$1,000 category prize be donated to the Royal Flying Doctor Service, a charity close to the heart of farmer and landowner Peter Kupsch who is pictured in conversation with MEPAU's General Manager - External, Government & Stakeholder Relations, Lisa Azzarello.

Upgrading Mid West ambulance comms

All 18 of St John WA's ambulances in the Mid West will receive a state-of-the-art emergency communications technology upgrade thanks to Mitsui E&P Australia and Beach Energy.

The \$117,000 St John WA Ambulance Communications Upgrade Initiative was launched on 4 May 2023 and will roll out the latest Wi-Fi technology and 5G compatible smartphones to the ambulances in Geraldton and surrounding Mid West subcenters.

At the launch event on 4 May, MEPAU Managing Director and CEO Ken Yamamura said he was pleased to support St John volunteers and paramedics to provide the best possible out-of-hospital care to the Mid West.

"This is a fantastic opportunity for us to improve lifesaving emergency services for the Mid West community," Mr Yamamura said.

"Health and safety are close to our heart at MEPAU. Continuously improving our health and safety systems is a crucial part of our day-to-day operations and keeps our people safe at work.

"We believe that strong safety systems deliver lifesaving outcomes and that's why we're partnering with St John WA – an effective ambulance service with a reliable communications system that will improve the health, safety, and wellbeing of the Mid West community."
