

MEPAU in the Mid West

NEWSLETTER | July 2025

MITSUI E&P
Australia

Mitsui E&P Australia (MEPAU) is a WA based energy provider with two facilities in the Mid West. MEPAU is a significant contributor to the development of a sustainable supply of energy for the nation and in addition to maintaining its energy resource portfolio, is pursuing new low carbon energy and carbon abatement opportunities.

Schedule of activities

MEPAU maintains an online Schedule of Activities that is regularly updated with planned activity information and timing – go to mepau.com.au

Conclusion of MEPAU's Wells Campaign

After kicking off our drilling campaign in March 2022, which ultimately included 19 wells as Operator (25 in total), MEPAU wrapped things up during June 2025, saying goodbye to the familiar Ventia Rig 106 and its crews.

In total, the team drilled over 55 kilometers of rock underground. The team successfully drilled, completed, and tested wells for the Waitsia Stage 2 and 2B Development, explored new reservoirs and decommissioned complex wells, during a continuous work program of well activity in our license areas.

Throughout the campaign, MEPAU's Drilling and Completions (D&C) team, along with the rig crews and service partners, consistently delivered top quartile operational performance outcomes, earning the distinction of being "Best in Basin."

The entire work program was completed safely, with no recordable incidents and with excellent care for the environment, ensuring full compliance with applicable regulations.

Supporting the Dongara Golf Club

MEPAU is pleased to provide a \$10,000 sponsorship to the Dongara Golf Club, in partnership with Beach Energy, to support the upgrade of their reticulation system.

Established in 1931, the volunteer-run Dongara Golf Club is a not-for-profit organisation and home to a 18-hole golf course. The reticulation system upgrade will help the club's greens remain in good condition, benefiting the community, including members and visitors. MEPAU was also pleased to support and attend this year's Dongara Oil & Gas Weekend, held at the club.

2025 Mid West Economic Forum

It was a privilege to be a part of the Mid West Chamber of Commerce & Industry's 2025 Mid West Economic Forum and Welcome Dinner.

The Welcome Dinner featured a standout menu by Chef Daniel Lyndon, highlighting native ingredients. The forum hosted valuable discussions on sustainable growth and regional challenges. MEPAU's Head of Government, Stakeholder Relations and Approvals, Kris Waddington, joined the energy panel to share MEPAU's perspective on the future of energy.

MEPAU and Beach Energy are proud sponsors of the 2025 Mid West Economic Forum Welcome Dinner.

Supporting the Shire of Irwin's Dongara Denison CCTV Project

MEPAU is pleased to announce a \$160,000 sponsorship, in partnership with Beach Energy, to support the Shire of Irwin's Dongara Denison CCTV Project, a key community initiative aimed at improving community safety and wellbeing.

This key project includes the installation of new CCTV systems at key locations throughout Dongara and Port Denison, providing coverage and enhanced monitoring capabilities. By helping to deter crime, protect vulnerable individuals and support local law enforcement, this community initiative will play a crucial role in creating a safer and more secure environment for all residents.

We are committed to supporting projects that create lasting benefits and contribute to the communities in which we operate.
