

MEPAU in the Mid West

NEWSLETTER | October 2025

MITSUI E&P
Australia

Mitsui E&P Australia (MEPAU) is a WA based energy provider with two facilities in the Mid West. MEPAU is a significant contributor to the development of a sustainable supply of energy for the nation and in addition to maintaining its energy resource portfolio, is pursuing new low carbon energy and carbon abatement opportunities.

Deep barriers safely recovered in Waitsia wells

MEPAU's Drilling and Completions team have successfully and safely recovered deep-set barriers in eight Waitsia Development wells.

The work was completed riglessly using wireline operations, highlighting the team's ability to carry out complex downhole tasks efficiently, while maintaining a strong focus on safety and well integrity. This is a key milestone in preparing the wells for the upcoming production phase.

As part of our ongoing decommissioning program, the team has also removed wellheads and completed site clean up at ten legacy wells — seven Operated by MEPAU and three JV wells Operated by Beach Energy at the Beharra Springs Gas Field.

Schedule of activities

MEPAU maintains an online Schedule of Activities that is regularly updated with planned activity information and timing – go to mepau.com.au

Supporting Irwin Charity Ball Committee

The Irwin Charity Ball Committee recently hosted a successful Long Table Dinner, with support from a \$4,000 Mid West Community Grant provided by MEPAU and Beach Energy.

Held at the Grange in Irwin, the event brought the community together to support Crawford House — an organisation providing affordable, supportive housing for families across the Mid West.

Guests enjoyed an evening with live music and live art demonstrations, where artists created works that were later auctioned to raise additional funds for Crawford House.

International Day of Rural Women

On 15 October, MEPAU proudly joined Desert Blue Connect and members of the Mid West community in Morawa to celebrate the International Day of Rural Women.

With inspiring guest speakers Shirley Katona and Julie Firth, the event featured engaging discussions, interactive activities, and meaningful opportunities to connect with women from across the region. It celebrated the essential role rural women play in driving sustainable development and strengthening local communities.

This event was sponsored by a \$4,000 Mid West Community Grant funded by MEPAU and Beach Energy.

New lighting brightens up the Big Tractor site

Lighting has been installed at the Big Tractor site in the Shire of Carnamah, funded by a \$3,500 Mid West Community Grant.

The grant was awarded to the Friends of the Big Tractor committee and sponsored by MEPAU and Beach Energy. With the lighting now in place, the tractor can be enjoyed at any time. This improvement is expected to attract more visitors to Carnamah, encouraging them to stop and spend time in the town.
