

Performance Horse Pellets

Performance Horse Pellets are a highly palatable, nutritionally balanced feed designed to be fed to horses in heavy work or competition, in conjunction with good quality roughage.

Features	Benefits
Nutritionally balanced ration	> Meets the protein, energy and mineral requirements of high performance horses when combined with good quality roughage
Highly digestible energy sources	> Provides energy from specially selected grains, protein meals and fibre sources to achieve optimum digestive health
Nutrient dense pellet	> An entire compliment of nutrients to support heavy work loads. Pelleting process increases ingredient digestibility.
Highly Palatable	> A feed readily accepted by most horses. Horses clean up all feed even during hard work
Quality assured vitamin/trace mineral premix	> Provides vitamins and minerals to meet optimum nutritional needs of performance horses
Made in WA	> Formulated specifically for WA conditions
No ingredient separation	> Even nutrient blend received by each horse. Eliminates sifting out of ingredients
Raw material receipt standards	> High quality and safe ingredients with FeedSafe® quality assurance
Cost effective	> An economical feed product, representing excellent value for money
