

## A PALATABLE, OAT-FREE, MUESLI 'SWEET' FEED FOR PEAK PERFORMANCE, RACE & SPORT HORSES

DESIGNED TO MEET OPTIMAL NUTRITIONAL REQUIREMENTS

### NUTRITIONAL ANALYSIS

Nutrients	As fed basis
Digestible Energy (min)	14.0 MJ/kg
Crude Protein (min)	15.0%
Lysine	0.7%
Crude Fibre (max)	11.0%
Added Salt (max)	1.0%
Crude Fat (min)	8.0%
Calcium (min)	0.9%
Phosphorus (min)	0.55%
Magnesium	0.34%
Zinc	130 mg/kg
Iron	260 mg/kg
Manganese	125 mg/kg
Copper	45 mg/kg
Selenium	0.8 mg/kg
Iodine	0.5 mg/kg
Cobalt	0.3 mg/kg
Vitamin A	12000 IU/kg
Vitamin C	250 mg/kg
Vitamin D3	1050 IU/kg
Vitamin E	350 IU/kg
Vitamin K3	5 mg/kg
Vitamin B1	11 mg/kg
Vitamin B2	12 mg/kg
Vitamin B3	80 mg/kg
Vitamin B5	24 mg/kg
Vitamin B6	7 mg/kg
Vitamin B9	5 mg/kg
Vitamin B12	35 µg/kg
Biotin	0.2 mg/kg

### INGREDIENTS

Steam flaked barley, cracked lupins, cracked maize, cereal byproducts, molasses, canola oil, canola meal, soybean meal, EquiJewel®, minerals, natural yeast culture, organic chromium, natural vitamin E, amino acids, mould inhibitor, KER Buffered Mineral Complex®, KER vitamin/organic trace mineral premix, including Zinpro Performance Minerals®.

### FEATURES AND BENEFITS

A highly palatable feed that will tempt the pickiest of eaters

Formulated with fermented natural yeast for improved utilisation of fibre, enhanced gut health and reduced lactic acid accumulation during exercise.

Provides all the essential nutrients, vitamins and minerals for optimal health and fitness of equine athletes

Contains KER BMC®, a unique bio-available calcium, with supporting chelated minerals, research proven to improve bone density, provide gastric buffering and minimise acidity in the hindgut

Concentrated formula allows you the flexibility to add your own grains or Sweetmax® can be used as the sole concentrate for 'good doing' horses or those requiring an oat-free diet

Contains EquiJewel® which provides an added source of fat-based cool energy

High quality protein and amino acid balance to build and repair muscle tissue

Contains high levels of the antioxidants Vitamin E and selenium for enhanced immune function and muscle recovery

High in B group vitamins to improve appetite, energy utilisation and red blood cell synthesis

Contains a natural yeast culture to enhance digestion and mineral absorption

Contains organic chromium to improve glucose metabolism, decrease lactic acid accumulation and reduce the severity of tying up

Contains added electrolytes to replace sweat losses

Complete range of vitamins and minerals contained in a pellet to reduce waste of powdered minerals and vitamins and ensure no sifting out

### FEEDING DIRECTIONS

Sweetmax® should be fed in conjunction with a minimum of 1% body weight of good quality roughage in the form of pasture, hay or chaff.

Sweetmax® should be introduced slowly to the diet over 7-10 days.

The amount fed should be divided into at least two feeds daily, with a maximum of 3kg of grain per feed.

Reduce the amount of Sweetmax® fed on rest days.

Additional grain may be added depending on the horse's energy requirements.

Clean, fresh water should be available at all times.

### EXAMPLE DIET FOR A 500KG HORSE IN MODERATE EXERCISE >

### FEEDING RECOMMENDATIONS (kg/day)

Bodyweight	400kg	500kg	600kg
Light work	1.5-3	2-4	2.5-5
Moderate work	2.5-5	3-6	3.5-7
Heavy work	3.5-6	4-7	4.5-8

The above table is a guide only and the amount fed should be adjusted according to the horse's age, temperament, condition, bodyweight and workload.
