

A HIGH ENERGY, COMPLETE FEED FOR RACE HORSES & PEAK PERFORMANCE HORSES

DESIGNED TO MEET OPTIMAL NUTRITIONAL REQUIREMENTS

NUTRITIONAL ANALYSIS

Nutrients	As fed basis
Digestible Energy (min)	13.0 MJ/kg
Crude Protein (min)	13.0%
Lysine	0.6%
Crude Fibre (max)	11.0%
Added Salt (max)	1.2%
Crude Fat (min)	6.0%
Calcium (min)	1.0%
Phosphorus (min)	0.5%
Magnesium	0.3%
Zinc	130 mg/kg
Iron	230 mg/kg
Manganese	100 mg/kg
Copper	45 mg/kg
Selenium	0.8 mg/kg
Iodine	1 mg/kg
Cobalt	0.1 mg/kg
Vitamin A	10 500 IU/kg
Vitamin C	250 mg/kg
Vitamin D3	1050 IU/kg
Vitamin E	275 IU/kg
Vitamin K3	5 mg/kg
Vitamin B1	9 mg/kg
Vitamin B2	12 mg/kg
Vitamin B3	60 mg/kg
Vitamin B5	19 mg/kg
Vitamin B6	4 mg/kg
Vitamin B9	5 mg/kg
Vitamin B12	30 µg/kg
Biotin	0.3 mg/kg

INGREDIENTS

Oats, lupins, barley, wheat, cereal byproducts, molasses, canola oil, canola meal, EquiJewel®, minerals, natural yeast culture, organic chromium, natural vitamin E, amino acids, mould inhibitor, KER Buffered Mineral Complex®, KER vitamin/organic trace mineral premix, including Zinpro Performance Minerals®.

FEATURES AND BENEFITS

- Provides all the essential nutrients, vitamins and minerals for optimal health and fitness of equine athletes
- High quality protein and amino acid balance to build and repair muscle tissue
- Formulated with fermented natural yeast for improved utilisation of fibre, enhanced gut health and reduced lactic acid accumulation during exercise
- Contains KER BMC®, a unique bio-available calcium, with supporting chelated minerals, research proven to improve bone density, provide gastric buffering and minimise acidity in the hindgut
- Supplies highly digestible energy sources, including added fat, to maintain body condition and meet energy needs for peak performance
- Contains high levels of the antioxidants Vitamin E and selenium for enhanced immune function and muscle recovery
- High in B group vitamins to improve appetite, energy utilisation and red blood cell synthesis
- Contains a natural yeast culture to enhance digestion and mineral absorption
- Contains organic chromium to improve glucose metabolism, decrease lactic acid accumulation and reduce the severity of tying up
- Contains added electrolytes to replace sweat losses
- Premium blend of quality grains and ingredients used to maximise finished feed quality and palatability
- Pelleting improves energy utilisation from grains and reduces waste of powdered minerals and vitamins
- Contains EquiJewel® for added fat-based energy and cool conditioning

FEEDING DIRECTIONS

Performax® should be fed in conjunction with a minimum of 1% body weight of good quality roughage in the form of pasture, hay or chaff.

Performax® should be introduced slowly to the diet over 7 -10 days.

The amount fed should be divided into at least two feeds daily, with a maximum of 3kg of Performax® per feed.

Reduce the amount of Performax® fed on rest days.

Supply a salt block to heavy sweating horses and extra electrolytes if required eg KER Restore.

Clean, fresh water should be available at all times.

**EXAMPLE DIET FOR A 500KG,
3 YEAR OLD HORSE IN
MODERATE EXERCISE >**

FEEDING RECOMMENDATIONS (kg/day)

Bodyweight	400kg	500kg	600kg
Light work	2-3	3-4	4-5
Moderate work	3-4	4-5	5-6
Heavy work	5-6	6-7	7-8

The above table is a guide only and the amount fed should be adjusted according to the horse's age, temperament, condition, bodyweight and workload.
