

DRY WALL SCREW WITH DOUBLE THREAD, COLLATED

For quick and easy attachment of plasterboard or wooden slats with a timber substructure

- For autofeed screwdriver with insert
- Bugle head
- Dual speed
- Phosphated (rust-protection for short-term humidity use, e.g. during construction phase or transport)

Proof of Performance

- Approved as per EN 14566:2008

Application area

- Fixing plasterboard or wooden slats with a timber substruct
- Fixing wooden base plates to a timber substruct

Notice

- Make sure the screws are long enough when attaching suspending brackets in wooden substrates. When using cordless drywall screwdriver TBS 18-A and drywall screwdriver S 50 TB, please use autofeed insert S 50 TB-M.
