SAS**720**

SAS720 is a linear ‘plank’ system, available in a variety of widths and depths depending on aesthetic preference. Highly robust and sturdy, SAS720 is suitable for service integration as an integral design feature, offering significant creative flexibility.

SAS720 comprises steel rolled c-profiles which hook over the carrier. Costs can be controlled through wider profile spacing if required.

Profile Sizes

Standard Length	3000mm
Standard Width	50mm, 100mm, 150mm
Standard Depths	30mm

Bespoke profiles sizes and waveform profiles are available on request. Longer continuous runs can be achieved through splices.

Access
SAS720 profiles can simply be demounted for void access.

Finishes
SAS720 is available in all standard SAS finishes, please refer to page 105. Bespoke finishes are available on request.

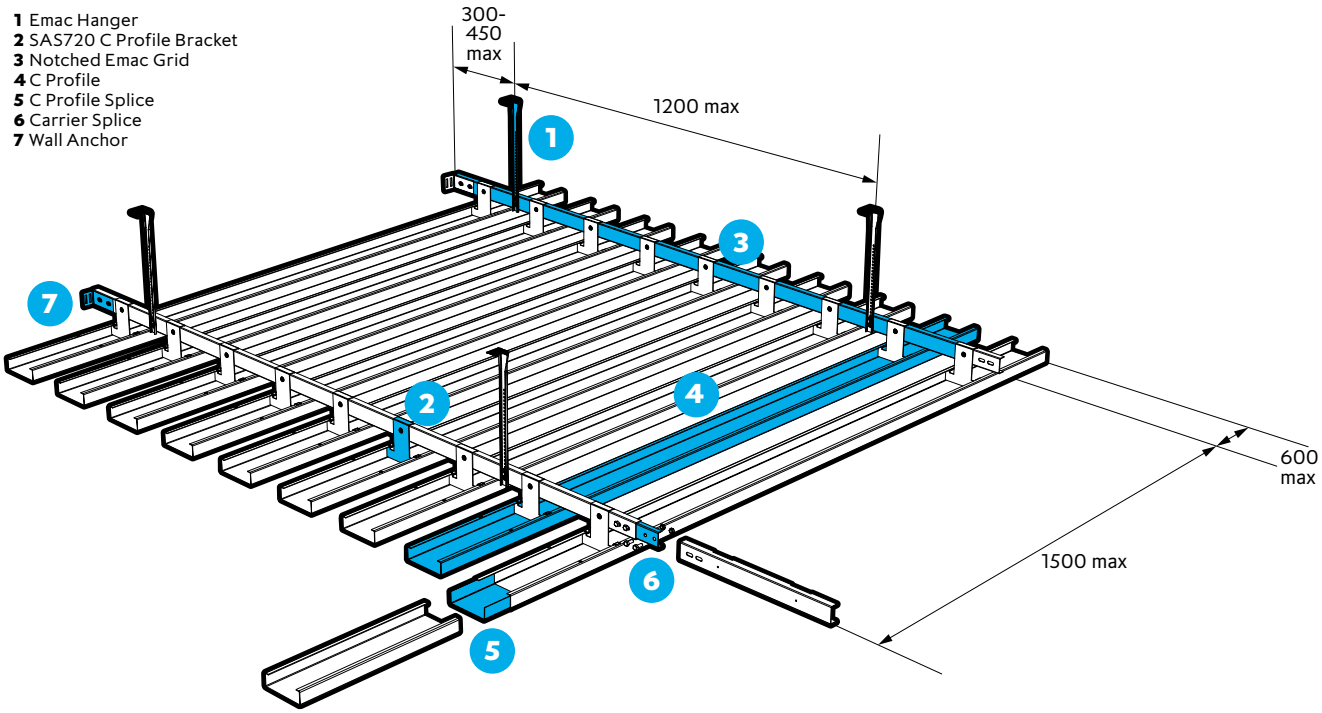

Service Integration
SAS720 profiles can be formed with apertures during manufacturing for integration with lights and other services.

Technical Support
Please contact our technical team for all questions relating to access, bespoke features and service integration.
