METAL CEILINGS

SAS800

Selected projects featuring Trucell open cell ceilings.

Kent County Council KENT	1 Aldermanbury Square LONDON	Autodesk FARNBOROUGH	RMS Parramatta SYDNEY

ABOUT THE SYSTEM

SAS800

SAS800 Trucell is a decorative open cell ceiling, for airflow and smoke extraction applications. The metal ceiling system comprises a series of open cell modules designed to lay onto a suspension grid. The ceiling tiles can integrate within other metal ceiling systems and plasterboard ceilings. Trucell is ideal for retail, transport or leisure applications with high human traffic flow. Rapid and safe smoke extraction is critical in such environments.
