ABOUT THE SYSTEM

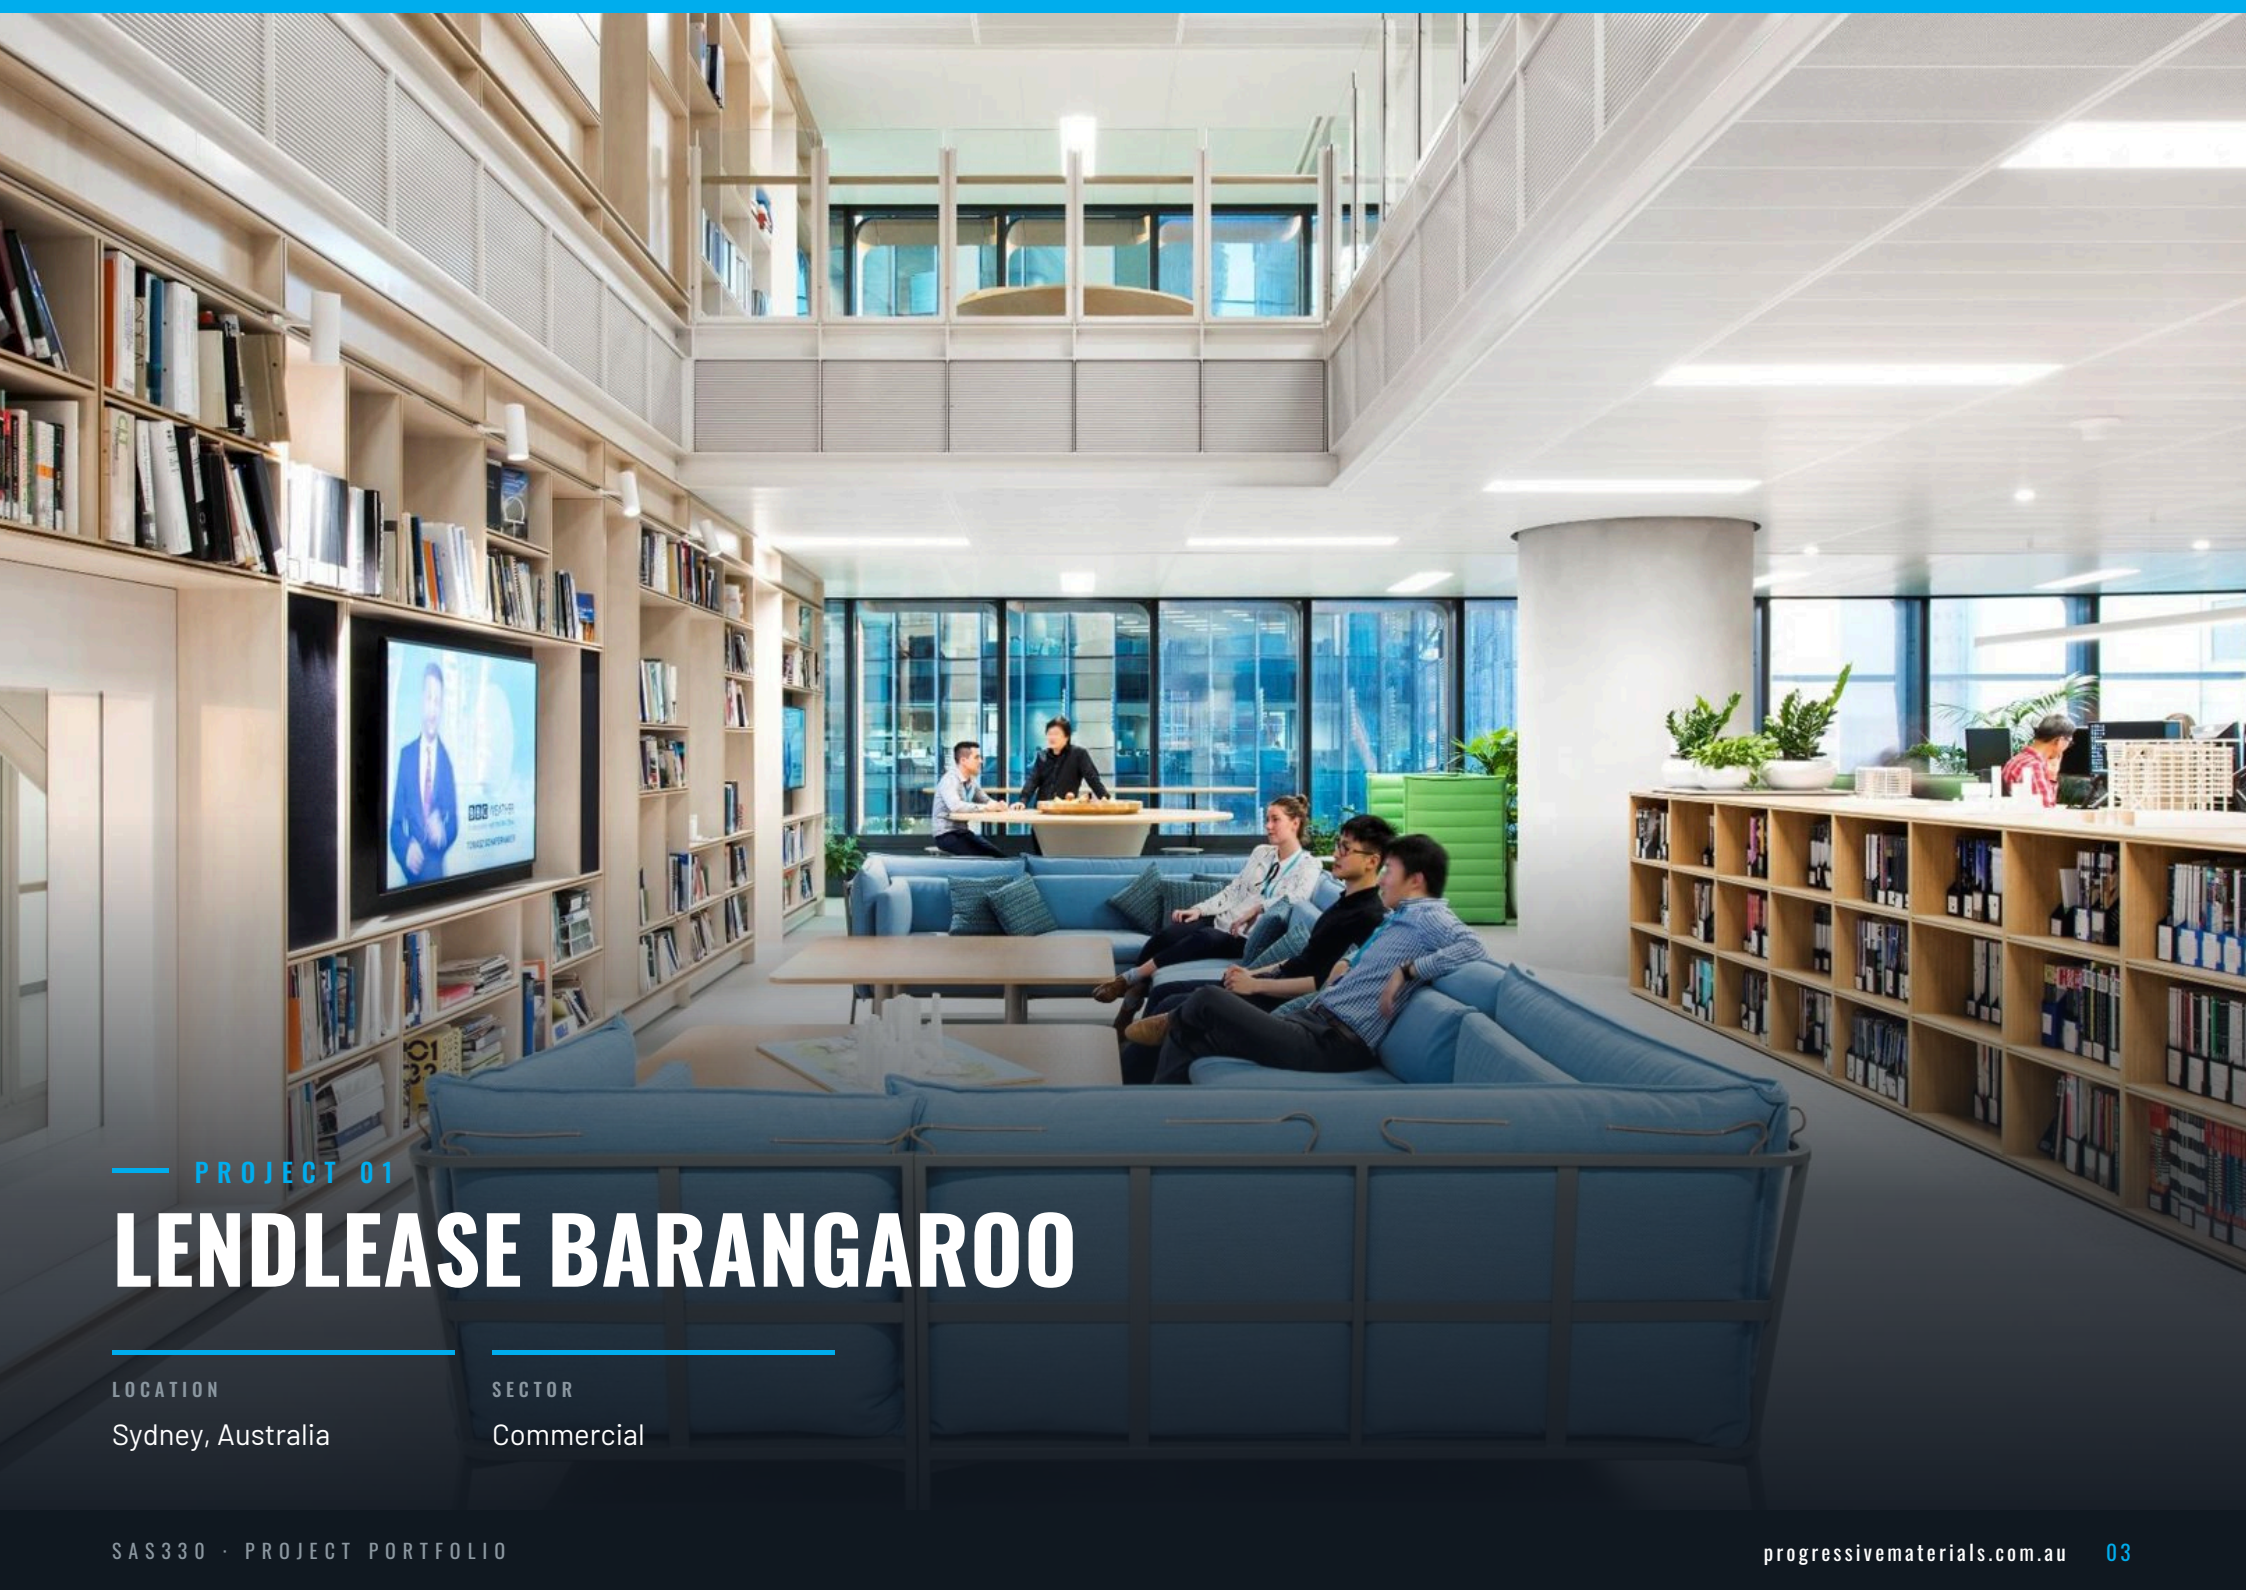

SAS330

The industry benchmark suitable for any building module, the versatility of SAS330 has seen it specified in landmark projects worldwide. Available in linear or tartan grid forms, the system combines beautiful aesthetics with high performance in equal measure. Delivering unsurpassed creative potential, ceiling tiles can be curved coffered and manufactured in virtually any polygonal shape. They are available in a variety of high quality finishes, both plain and perforated. In addition, SAS330 offers service integration details sympathetic to the overall design.
