

Log on to Core Desktop

Please follow the below process to log into your new Virtual Desktop

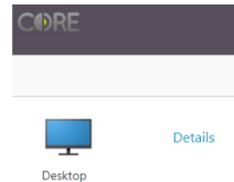

STEP 1. Browse to <https://portal.core.vc> (Please bookmark  this URL if you haven't done so already)

STEP 2. Please enter your login credential (username/email address and password) – These are the same credentials for your Office 365 user account.

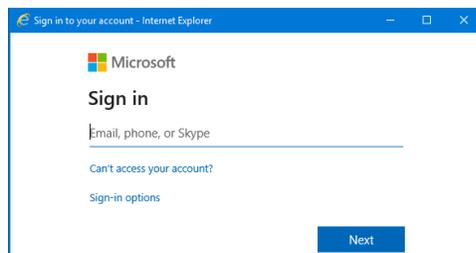

STEP 3. Once logged in with username/password you will see the Detect Receiver Page. Click on the “Detect Receiver” button. If prompted click on the option “Open Citrix Workspace Launcher”. (These will display or launch the Virtual Desktop)

STEP 4. Click on the displayed ‘Desktop’ icon to launch the Virtual Desktop.

STEP 5. Upon logging in you will be prompted with another sign in page, please use the same username and password. This will map your S drive (Shared Files) and O drive (which was the H drive in Trusted Cloud) as well as all other drives that have been migrated. You will also be prompted for MFA (Multi-Factor Authentication, e.g. SMS code/Authenticator App). *If you have not set this up yet you will be prompted to do so at this point.

STEP 6. Please check that your drives are correctly mapped by clicking on the ‘This PC’ icon:

Add Mail Account in Outlook

Please follow the below process to add a mailbox into Outlook in your new Virtual Desktop

It will be necessary to add your existing email account into Outlook manually. An instructional video is embedded below and shows this process in greater detail. In the coming weeks mail be migrated from TC to Microsoft 365.

STEP 1. Click on the 'Outlook' icon on the Virtual Desktop

STEP 2. Add your email address and click 'Advanced Options' – tick the 'Let me set up my account manually' box, click 'Connect'

Please wait as 'We're getting things ready' message may take a few minutes to complete

STEP 3. Allow configuration server settings by ticking the 'Don't ask me about this website again' box and clicking on 'Allow'

STEP 4. Click on 'More choices' option and 'Use a different account' – then enter your existing wavenet username

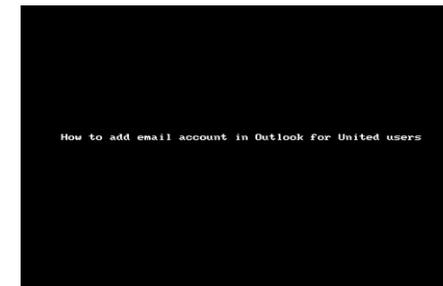

STEP 5. Allow the configuration to continue, then click 'Next' in the Exchange Account Settings

STEP 6. The Account will be added – please untick the box 'Set up Outlook Mobile on my phone, too' and click 'Done' (Outlook will launch)

STEP 7. Close the prompt dialog box and close Outlook

STEP 8. Re-open Outlook from the Desktop icon and re-enter your email password as prompted, click the 'Remember my credentials' tick box and click 'OK'

***Please view step by step instructional video on the following page →**

Re-create Email Signature

Please follow the below process to re-create your email signature in the new Virtual Desktop

STEP 1. Open Outlook and go to your sent items – copy a recent signature you have sent including any email disclaimer notice (small print) by dragging your mouse over the content and right clicking ‘copy’ (this is now copied and ready to be pasted in the following steps)

STEP 2. Within Outlook, go to File (top left) > Options (left navigation pane) > Mail (left navigation pane) > Signatures

STEP 3. Under E-mail Signature tab, select ‘New’

STEP 4. Name the signature, e.g. United Signature, click ‘OK’

STEP 5. In the ‘Edit Signature’ (bottom) blank field, paste the contents of the previously copied signature, then click ‘OK’ once the signature is pasted

STEP 6. Choose the default signature settings from the upper right side dropdown boxes

STEP 7. Email account – select your email address, New messages – select ‘United Signature’, Replies/forwards – select ‘United Signature’ (this will now append signatures to all new and replying email messages)
