

ANTI-CLIMB FENCE WITH SQUARE POST DATA SHEET

ANTI-CLIMB FENCE WITH SQUARE POST

	ANTI-CLIMB	SEMI ANTI-CLIMB
 Mesh Spacing	Vertical: 75mm Horizontal: 12.5mm	Vertical: 25mm Horizontal: 75mm
	100*12.5mm	
 Wire Diameter	4mm	
 Panel Length	2400mm	
 Panel Heights	900mm 1200mm 1500mm 1800mm 2100mm 2400mm 3000mm	
 Finishing Options	Hotdip Galvanized After Welding Hotdip Galvanized Before Welding Powder Coated	
 Accessories	Carriage Bolt & Nut Flat Bar	

ASHMIC Steel Group presents a premium Anti-Climb Fence system featuring square steel posts and a high-density welded mesh panel. This design minimizes hand and foot holds, making it nearly impossible to scale, cut, or breach, ensuring superior protection for critical facilities.

Manufactured using galvanized or powder-coated steel, our fencing solutions resist corrosion and weathering, delivering long-lasting durability in all environments. The square posts provide added structural integrity and are available in a range of sizes and finishes to meet your project specifications.

Key Features:

- Anti-cut & anti-climb design (tight mesh pattern)
- Durable square post construction for enhanced strength
- Corrosion-resistant coating (galvanized or powder-coated)
- Tamper-proof fastening system
- Ideal for: Industrial sites, power plants, prisons, airports, data centers, and military zones
