

XDi Express Deposit Solution

The XDi Express Deposit Solution is a through-the-wall self-service device designed to accept large deposits of cash, cheques and documents secured in tamper-evident, barcoded bags.

This solution allows Retail and Business customers to prepare their deposit in a safe environment and complete their transaction in branch securely, without cash exposure, in less than 30 seconds.

Each deposit is recorded in detail, identified by account ID, timestamp and barcode, which are all detailed in the acknowledgment slip the User receives at the end of each transaction. This not only provides full traceability of each bag, facilitating the reconciliation of the deposits by the CIT or branch staff; it also offers compliance to Anti-Money Laundering regulations where required and can provide same-day credit as an added value to your customers.

With 99.7% uptime, the XDi is undoubtedly one of the most reliable deposit solutions in the self-service market. Now in its 5th generation, the XDi range offers increased capacity, improved security features and the same simple-function ethos that makes it our best-selling solution around the world.

APPLICATIONS

BANKING - Financial Institutions deploy our XDi solutions to reduce wait times for customers and migrate cash deposits/document drop-offs to a self service device. They prefer our solution due to the unique speed, safety and uptime it offers.

CIT - Cash Management Providers install XDi solutions in shopping centres and high-streets to facilitate their retail customers.

TRANSPORT - Airlines use the XDi solution to accept deposits of in-flight purchases/charity donation money 24/7 and in airports across the world.

PROCESS

- 1. PREPARATION** - The User fills a tamper-evident, secure bag with coin, banknotes, cheques and/or documents in the safety of their home/office.
- 2. VERIFICATION** - The User goes to the XDi and verifies their account by inserting a valid account card in the card reader or by entering their account number and sort code via touchscreen or keypad.
- 3. VALIDATION** - The User enters the amount of cash and cheques in the bag.
- 4. DEPOSIT** - The User scans the barcode on the bag and places it into the automated chute.
- 5. ACKNOWLEDGMENT** - The XDi will provide a unique acknowledgment of the transaction, recording account ID, timestamp and barcode number.

BENEFITS

- OFFER A QUICK AND SMOOTH EXPERIENCE TO YOUR CUSTOMERS**
An average deposit only takes around 30 sec to complete and it's confirmed by an acknowledgment slip with transaction details
- AUTOMATION OF CASH AND ADMIN HEAVY TRANSACTIONS**
Migrate time consuming, bulky deposits away from your counters to increase staff efficiency whilst improving customer service
- EASY RECONCILIATION AND AUDIT OF DEPOSIT**
Bank staff or Cash Management Providers are supplied with a full record of expected amounts and account details for easy reconciliation and AML compliance
- LOW COST OF OWNERSHIP**
With a simple and clever design, the XDi offers a 99,7% uptime and easy maintenance, thus lowering your operational costs.

FEATURES - XDi In The Wall, Rear Access
