

RCS200 + RCS300 SLIM

The SLIM is a fully integrated 24/7 self-service cash recycling solution for small-medium size stores or venues, with a busy cash environment.

It can be used as a back-office cash recycler, or as a front office under the counter by the cashier.

The SLIM can dispense personalised floats in less than one minute, and minimises the risk of errors and the cost of manual cash handling by removing the need for staff to handle cash.

This compact cash recycler increases staff efficiency and accountability by enabling a faster, more effective, and secure routine.
