NC-6500

The NC-6500 is a compact, cost-effective and low noise 1+1 pocket sorter designed specifically for banking. It offers superior counterfeit detection and note recognition technology to quickly detect and sort notes by currency, denomination, orientation, and fitness.

Easy to use and maintain, the NC-6500 is proven to deliver consistent, accurate counting and validation, optimal performance and swift operation every time.

SPECIFICATIONS

- Processing speed **up to 1,100 notes per minute** (piece count). Detection mode 900 NPM

- **Multi-currency** - Recognises up to 10 currencies at once including USD, EUR, and GBP

- **Counterfeit detection** - MR, MG, CIS, UV, IR reflection and transmission, and thickness sensor

- **Advanced fitness sorting capabilities** - Counting, authentication, fitness sorting, and serial number scanning simultaneously performed in one pass. **Cheque reading** functionality available

- **ECB compliant** and covered by an extended 3-year warranty

- **Dual User functionality** - two tellers can share a machine while keeping their individual settings

- **Easy to maintain** - the head of the unit opens completely to expose the note path, allowing to easily clean the machine

- **Easy to fix** - the unit provides 7 different error messages, enabling an efficient resolution without requiring specific training

- **LAN connectivity to PC** or printer for easy access to recorded data like counts and serials

- **Easy software and banknote template upgrades** via PC, SD card, and LAN

Dimensions: 280 x 272 x 282 mm
Weight: Approx 8.2 Kg
Power Supply: 100-240V AC, 50/60Hz (50W Consumption)
