Jo Sonja Paint Series - One coat of paint directly to glass

Jo Sonja Paint Series - Two coats of paint directly to glass

Please note that the above image samples of the Jo Sonja paint series have been created to demonstrate to artists the coverage and levels of opacity that come with the revised colour paint selections.

Each application was directly to glass, without a white paint backing. Each image has a print out of the word TRANSPARENCY so that artists can see the levels of opacity.

Please note that the images for coat 1 and coat 2 were taken at different times of day.
