

Have you considered undertaking a PhD with some of the best scientists in the world?

PhD Scholarship in Basic Medical Research

Why not take control of your own future and be proactive in the choice of research area that excites you. If you're an outstanding and enthusiastic graduate committed to a career in research then apply now for a CMRI PhD Scholarship.

Children's Medical Research Institute (CMRI) is an award-winning state-of-the-art medical research facility, with over 100 full-time scientists dedicated to researching the genes and proteins important for health and human development. CMRI is supported in part by its key fundraiser Jeans for Genes®. Our scientists are internationally recognised research leaders and foster excellence in postgraduate training. CMRI graduates are highly sought after nationally and internationally.

CMRI is located at Westmead, a major hub for research and medicine in NSW, and is affiliated with the University of Sydney. We are easy to access by public transport.

Successful applicants will be awarded a Scholarship, consisting of a **generous top-up** over the value of a university Research Training Program (RTP) scholarship for 4 years. Successful applicants will also be expected to apply for external scholarships with support from CMRI research leaders.

Projects are multi-disciplinary with training in molecular and cellular biology techniques, with some involving mass spectrometry, proteomics, bioinformatics, transgenic animals or live cell imaging.

Areas of CMRI research strength:

- **Developmental biology and genetic disease**
- **Gene therapy**
- **Neuroscience**
- **Cancer**

For more details about projects, supervisors and CMRI, visit the CMRI website:

A list of PhD projects available can be found at the following URL:

<http://bit.ly/CMRIResearchOpportunities>

We recommend contacting supervisors directly for more details of these or related projects.

Eligibility requirements

- Applicants must hold:
 - a relevant Bachelor's degree with first or second class Honours, OR
 - a research Master's degree, OR
 - at least 6 months of supervised research training
- Applicants must be available to start a full-time PhD at CMRI within 6 months.
- International students are eligible to apply, but the CMRI award does not cover university tuition fees.
