

Margaritelli Aesthetic Safety Barrier Systems

Esterni Eterni products are distinguished by essential lines, good design, a careful selection of raw materials and advanced processing technologies.

With their unmistakable aesthetic value, these barriers beautify the areas where they are installed. They are especially suited for use when the need to have adequate protection for street users must be combined with respect for the artistic, historical and landscape aspects of the setting.

Esterni Eterni products are made exclusively with CE marked fir laminated wood and have been awarded the CE conformity certification, as well as the Chain of Custody according to the PEFC Forest Certification scheme.

FEATURES

- Eco-friendly: Margaritelli supports the sustainable management of forests.
- Refined: smooth surfaces and rounded edges.
- Simplicity: comprised of only a few elements it improves manageability of worksites.
- Versatile: bends and slopes are not a problem.
- Technology: uses laminated wood only.
- Durability: wood is treated under void-pressure using ecofriendly preserving copper and boron based products.
- Treatment: a superficial impregnation treatment protects the surface from harmful UV rays.
- Resistance: the use of Corten steel combines extraordinary durability with aesthetic value.
- CE Marking: we produce road safety barriers in compliance with the harmonised standard EN 1317 - Parts 1, 2 and 5 and accompanied by certificate of constancy of performance and CE marking.

SPECIFICATIONS

Safety barrier	H1BL-01	H2BL-01	H2BP-02
Destination	Road side	Road side	Bridge side
Containment level	MASH TL-2	MASH TL-3	MASH TL-4
Post spacing	3m	2m	3m
Working width	1.7m	1.7m	1.8m
Dynamic deflection	1.5m	1.5m	1.5m

STANDARDS AND APPROVALS

- EN 1317- Parts 1, 2 and 5 and accompanied by certificate of conformity of performance and CE marking.
- CE conformity certification, as well as the Chain of Custody according to the PEFC Forest Certification scheme.

NB: Product is imported from Italy on a job by job basis. No stock is held in New Zealand. A lead time will be provided at time of quotation.
