Dear Colleagues

Re: Relocation of DASSA Northern Service

Drug and Alcohol Services South Australia (DASSA) wish to advise you that DASSA Northern Service will be relocating to a new site at:

2 Peachey Road, Edinburgh North SA

The relocation is anticipated to occur in stages over a one-week period between **February and March 2027**, subject to the completion of site works. We will advise you of the confirmed relocation date as soon as it is available.

Until the relocation takes place, the DASSA Northern Service will continue to operate as usual from the current location.

DASSA is committed to maintaining continuity of service throughout the transition, with the Northern Service expected to continue operating during the relocation period. Minimal disruption to service delivery is anticipated, and existing referral pathways and service arrangements will remain unchanged.

As a valued referral partner, we are providing this advance notice to support your organisation in planning for the upcoming relocation and to ensure your staff are aware of the change in address.

Should you have any questions regarding the relocation or require further information, please contact the DASSA Northern Service team 7485 4600 or Health.DASSANorthernServicesAdministration@sa.gov.au.

Thank you for your continued support and collaboration in delivering services to our shared clients and communities. We sincerely appreciate the important role our stakeholder and referral partners play in supporting access to alcohol and other drug services across the northern region.

Yours sincerely,

Dr Michael Findlay
Statewide Clinical Director
Drug and Alcohol Services South Australia (DASSA)
