

To Urban Renewal & Planning.

Newcastle Precinct.

Enclosed local promotional material from local member.

The drawing on the map indicates a proposal to construct new city cycleway/walkway.

Advantages/Obvious Development/Information

- Newcastle sees itself as a cycle friendly environment (A recent National Award to Bernard Hocking - Chief Co-ordinator of 2012 Newcastle Bikefest)
- The sketch area was temporarily opened for The Bikefest.
- The western extremity of the bike/pedestrian track goes to TIGHER HILL TAFE - an obvious safe way for students to travel
- Joining the two existing tracks (less than 1 kilometre) would give Newcastle residents, students, (Uni. TAFE) and tourists a showcase path.
- Recent cycling accidents some fatal (Wednesday 27th March) compels us to get bikes and cars separated.

Deanna Bailey 41 Margaret St. Tigher Hill NSW 49408088.
