Dear Sir

You don't think of the hunter people who live in scone and singleton and dungog who use the city rail every day for work. And what are you going to do with the electric line that you put in for the trains to go from hamilton to newcastle if you are going to cut the line at wickham that a waste of money in the first place if you can't keep the line open. The newcastle mayor thinks about development he does not care about the people who live in the hunter region. It will be cheaper to go by train than by car the prices of petrol is going up and it will be hard to find a car park in newcastle and it take us about one hour or more to go from maitland to newcastle because of to much traffic on the road. Our roads can not take the traffic condition in newcastle the (MP Maitland) does not care if the line is cut at wickham she said get used to the decision they dont think about it they think about there money and the people that will suffer like the elderly and people wheel chairs and everyone esle that uses city rail.

yours truly
