Dear Executive Director,

Thank you for your prompt reply, As mentioned is the need to recognise the existing business precincts strategic planning requirements to sustain investment and job security. The community have an expectation that the Newcastle CBD is a priority and I congratulate you and your team on the important work completed to date.

Now is the time to reconcile various policies and plans to reinforce the Lower Hunter Regional Strategy and get the town moving again. Your brief email clarifying the communities concerns goes a long way to strengthening the good relations required to get the job completed.

Kind regards
David Compton
Councillor Ward 4
