Hi NSW Planning people,

I would like to make two points regarding the State Gov Urban renewal strategy.

1. Making the right decisions aren't usually the easy ones - in this case, the easy option is to do what has been done for forty years - nothing.

2. Showing true leadership is something the Newcastle area hasn't seen since federation. This is THE chance for a Government to make it's make and transform Newcastle into the city it can be.

Take no prisoners, don't listen to the naysayers that protest the proposed changes.  
Newcastle has more than it's fair share of people who make an art form of presenting negative and regressive points of view. Its time to persevere with change.

Thanks
