Subject: Dear Mr Hazzard

Dear Mr Hazzard,

My name is Phillip, I am writting to you because I wish to ask please don't cut the Newcastle railway line at Wickham, there is another alternative to build up Newcastle's CBD without the railway being cut and lifted

If you have a look in Sydney, you have many railway stations that has a shopping centre over the top look at Hurstville and Kogarah stations... You can build similar to this by building over the railway line between Newcastle and Civic railway stations to build up Newcastle's CBD... If only politics open their eyes and look at this alternative

The government talks and talks about Global Warming all the time, and do you think by cutting the rail line would help? NO, it would casue traffic chaos within Newcastle's CBD then what it already is

I want you to picture Newcastle with the line cut at Wickham, lets see what sort of chaos it will cause besides traffic problems

1) Change for buses at Wickham, first stop Civic and then Newcastle... The bus is completely full and you have got an old lady standing up and a pregnant lady also standing up because there is no seats left

Not many people will give up their seats for an old lady, old man or a pregnant lady, you need to think about this

2) It's a very hot day, and the person gets off at Wickham terminal and decides to walk into Newcastle How long do you think that the person would last for especially if he or she has missed the bus to the CBD? The person would be in hospital before they could get to the CBD, it's interesting isn't it?

3) It's a late night, and a girl has missed her bus to get back to Wickham station to get her train home shit!!! Sadly she missed the last train, and now she has nothing better to do then walk around all night until the next train service. I want you to really think on this one, as you can see the story I am trying to point out to you, what happens if she gets raped?, What if she gets robbed?, What if she gets stabbed? Do you think you could live with this burden after reading what happend to this girl in the local Newcastle and Maitland newspapers? NO, I know I couldn't... What happens if it was your daughter, see that also as an exsample

All I aks that you do not cut the rail line at Wickham, but look to an alternative to build up Newcastle's CBD such as the way the shopping centres are built in Sydney's suburbs such as Hurstville and Kogarah You can build over the top of the stations it's less cost effective then what you think, ripping up the rail line will cost more money before you can start building, so please keep the railway intact

You know, NSW has had many railway lines cut back and lifted which is very sad why doesn't the govenment fuck up Melbourne, cut their railway lines back, left up their railways, come to think of it life up all the tramways in Melbourne, Sydney and Brisbane lost their tramways year ago and I think it's time Melbourne's was lifed so start fucking Melbourne up and leave NSW railways alone, I appologise for my swearing but it's the truth... Just keep Newcastle's railway line intact and left along forever... Build up Newcastle's CBD over the railway line without fucking it up Hire some new contractors who knows what to do...
