As a property owner and a company who conducts business from premises in the Honeysuckle Newcastle precinct, the JSA Group is strongly in support of the multifaceted initiatives contained in the Newcastle Urban Renewal Strategy.

We believe that these initiatives will improve the city's economy, access, connections and the quality and attractiveness of the public domain, all of which are catalysts for encouraging development and support of local business.

We strongly recommend that the Renewal Strategy be adopted.

Regards

**Mark Amos**
