Subject: Revitalise Newcastle

Good Afternoon,

Removal of Rail Line

As a long term Hunter Valley resident, I wish to strongly object to the NSW Government's proposed plan to remove a perfectly effective & efficient transport infrastructure, being the direct rail transport for residents outside the inner Newcastle Area.

We the commuters deserve to maintain our direct link to Newcastle without the inconvenience of changing modes of of transport in unpredictable weather conditions or unspecified transport interchange.

We feel we have been betrayed by the government and at no time consulted.

Successful revitalisation of Newcastle needs close consultation with neighbouring areas that feed into Newcastle not just the self interested parties in Newcastle

Where in the world do they pull out perfectly efficient transport infrastructure to appease a minority group & in years ahead regret the decision

I strongly urge the Government to reconsider their actions

Yours sincerely

Lyn & David Shafer
