Subject: NWRL - Cherrybrook precinct

I am totally appalled by the draft policy plan for the area around the proposed Cherrybrook train station. While I accept some change to the surrounding area, the plan to increase dwellings by 1800 in such a small target area is outrageous . It is far too many. Cherrybrook is a leafy suburb of single or two storey homes and is not an appropriate area for multi storey apartments. Would you do the same at Beecroft, Thornleigh, or Normanhurst stations....I don't think so.

We don't want it at Cherrybrook either.

There was no advertising of the consultation process. I found out about the information session from the "Save Cherrybrook Committee".

I live on Franklin road and I would have liked to have been informed by DOPI of the proposed changes to my area, by them, not a protest group.

Where is the cooperation between government and community.

I would like to see the consultation period extended, so that DOPI can properly inform and consult with the Cherrybrook community.

Your information session that I attended was abrupt and some of the speakers were very condescending in their approach to the residents concerns.

Please extend the consultation period and send information to all the residents of Cherrybrook so that we can have some input in to what happens in our suburb.
