Dear Sir/ Madam,

I would like to raise mine and my families concerns re the proposed North West rail link corridor strategy.

We have been living in the Cherrybrook area for over 25 years and over the years have seen many changes in the area some good and some not so great.

The roads , shopping centre and the public schools as they are can not cope with the population and the number of cars at the present time and for the council and the NSW government to consider increasing the number of dwellings and the population and cars etc.. that will come with it in our opinion will be disastrous for the area.

Many residents have only known about this for a very short time. **Some residents do not even know about the proposed changes.** Even our Local Member and Hornsby Councillors were unaware until it was released.

More time and effort is required to advise all Cherrybrook and surrounding areas affected by the new proposals.

Consultation for changes to centres such as Epping was carried out over a period of many years.

Please , Please reconsider the proposed planning changes for the Cherrybrook area. We do not need or want these changes to go ahead in our area.

Thank you for your consideration.

Regards,
Camelia Shamavonian
