Subject: strong objection on re-zoning area around Cherrybrook proposed train station for high-rise development

To whom it may concern,

As residents on Arundel Way Cherrybrook, I object strongly against the plan of re-zoning area round Cherrybrook proposed train station for medium / high density housing. The main reasons are as follows,

- The draft structure plan is inconsistent with State Environmental Policy (SEPP) 32
- The proposal of adding a further 1800 homes to one small section of one suburb will destroy the peaceful and friendly environment entirely.

Regards

Christina

(Arundel Way, Cherrybrook)
