Thank you for your information about the aircraft noise pollution.  
The new housing in South Tralee and their occupants will not have more aircraft noise exposure than what we are having in Jerrabomberra.  
The planes flew all over Coral Drive, Coachwood Ave where the school is situated 24/7.  
My concern is will we be compensate by de ACT/NSW government to install in our house double glaze windows and roof insulation? Like the new houses are suppose to have in South Tralee.  
Our quality of live has change dramatically since the free 24-hour curfew , and reading your letter it's going to get worse. Not even Sydney has the 24 hours curfew free.

Kind regards

Juan and Rosa Olabarriaga
