Dear Sarah

*Re State Environmental Planning Policy (Infrastructure) Amendment (Shooting ranges)*

The committee of management of this club has been following the developments surrounding the proposed SEPP relating to shooting ranges with great interest.

We are greatly encouraged by your initiative in seeking feedback on the proposed changes that, if implemented, will create better planning outcomes for existing shooting ranges.

Please record our full support for the amendment that proposes existing lawful shooting ranges are a permitted use in local council plans and shooting ranges a permitted use in adjacent non-urban land.

Yours sincerely

Ken Lindsay  
Secretary
