Comment: To Whom It May Concern, I [REDACTED] owner of [REDACTED] Caringbah NSW 2229 comment as follows: 1. I support the LEP wholeheartedly 2. Request support from council regarding lot amalgamation as a. makes it easier for residents to relocate b. allows for better design and more open space leading to a more aesthetically appealing outcome 3. Declare that I have not made a donation to any political party etc 4. Is good to see Caringbah released for High Density housing 5. Strongly believe that increasing the density in the area is a necessity and will have a extremely positive effect on local shops stimulating an increase in turnover to both sustain existing shop owners as well as incent growth and attracting new business to the area. I have already been in consultation with my immediate neighbours and they are supportive of amalgamating their lots with mine. These addresses include [REDACTED] and [REDACTED] I can be contacted on [REDACTED] anytime to discuss the above. [REDACTED] Tel: [REDACTED] Mob: [REDACTED]
