

Dear Marian

Please read this letter
which I sent to Sutherland
Council & use your influence
to encourage a public explanation.
Thank you - M.

The Officer in Charge of LEP Zoning

Sutherland Shire Council

4-20 Eton Street,

Sutherland

PCU51232

Dear Sir/Madam,

In the past, I had always felt comfortably informed about the Shire Council's plans & praised its transparency to people from other local council areas. However, I am dismayed by my confusion of the revised zoning plans for Bundeena.

- Are we allowed to support our elderly or young adults by providing a "granny flat" on our properties?
- Will our local school still offer the children the freedom to explore the natural bushland in their playground and create their "cubbies"?
- Will we be intimidated by inappropriate high rise development?

Is it possible that we can be clearly informed of the decisions the council makes and offer an opportunity to **listen & discuss** how they may affect the local people?

With two-way respect and clear information, decision making can avoid emotional outbursts and aggression which is becoming more prevalent in today's society. So I trust that you may influence the council to offer such accessible opportunities.

Yours faithfully,

A handwritten signature in blue ink that reads "Susan Spiteri".
