2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

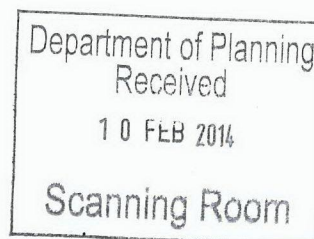

- 9am winter and 3pm winter shadows cover all of the Mall and all of Surf Rd and Ocean Grove Ave.
- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will **shadow the Esplanade footpath in mid winter** (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway shadows the west side** of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- **No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.**
- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**

*LACK OF PLANNING & ACTION FOR GROWING  
POPULATION IN REGARDS ROADS PARKING  
& ALL INFRASTRUCTURE.*

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover all of the Mall and all of Surf Rd and Ocean Grove Ave.
- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will **shadow the Esplanade footpath in mid winter** (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway shadows the west side** of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- **No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.**
- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**

Parking in Cronulla is already an issue  
The shading in the mall will  
detract from its current attraction  
resulting in loss of business.

- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**

*Traffic & parking are already nightmares in Cronulla. Any further high density in Cronulla itself is not sustainable - certainly without a traffic & parking plan! It is time to listen to residents not the developers. ~~There~~ There is scope for maybe some ~~low~~ one or two storey villa type models to increase capacity on a controlled basis & meeting people's needs.*

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover all of the Mall and all of Surf Rd and Ocean Grove Ave.
- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will **shadow the Esplanade footpath in mid winter** (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway shadows the west side** of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- **No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.**
- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**

*This proposal will devastate Cronulla for locals. Not enough infrastructure, roads already too over-crowded, parking is already a joke. Locals will be pushed out.*

- Building across from Mall at 3-13 Kingsway shadows the west side of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.
- No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.

**Further I object to the following matters in Cronulla and Sutherland Shire.**

As a resident it is already very difficult to get in and out of Cronulla. Keep the village atmosphere as much as possible.

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover all of the Mall and all of Surf Rd and Ocean Grove Ave.
- Monro Park is shadowed over approximately 30% at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will shadow the Esplanade footpath in mid winter (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at 3-13 Kingsway shadows the west side of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.
- No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.

**Further I object to the following matters in Cronulla and Sutherland Shire.**

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover all of the Mall and all of Surf Rd and Ocean Grove Ave.
- Monro Park is shadowed over approximately 30% at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will shadow the Esplanade footpath in mid winter (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at 3-13 Kingsway shadows the west side of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.
- No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.

**Further I object to the following matters in Cronulla and Sutherland Shire.**

LEAVE CRONULLA AS IT IS!

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover all of the Mall and all of Surf Rd and Ocean Grove Ave.
- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will **shadow the Esplanade footpath in mid winter** (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway shadows the west side** of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- **No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.**
- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover **all of the Mall and all of Surf Rd and Ocean Grove Ave.**
- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will **shadow the Esplanade footpath in mid winter** (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway shadows the west side** of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- **No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.**
- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover all of the Mall and all of Surf Rd and Ocean Grove Ave.
- Monro Park is shadowed over approximately 30% at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will shadow the Esplanade footpath in mid winter (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at 3-13 Kingsway shadows the west side of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.
- No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.

**Further I object to the following matters in Cronulla and Sutherland Shire.**

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover **all of the Mall and all of Surf Rd and Ocean Grove Ave.**
- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will **shadow the Esplanade footpath in mid winter** (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway shadows the west side** of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- **No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.**
- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover **all of the Mall and all of Surf Rd and Ocean Grove Ave.**
- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will **shadow the Esplanade footpath in mid winter** (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway shadows the west side** of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- **No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.**
- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover **all of the Mall and all of Surf Rd and Ocean Grove Ave.**
- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will **shadow the Esplanade footpath in mid winter** (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway shadows the west side** of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- **No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.**
- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover **all of the Mall and all of Surf Rd and Ocean Grove Ave.**
- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will **shadow the Esplanade footpath in mid winter** (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway shadows the west side** of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- **No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.**
- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover **all of the Mall and all of Surf Rd and Ocean Grove Ave.**
- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will **shadow the Esplanade footpath in mid winter** (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway shadows the west side** of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- **No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.**
- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover all of the Mall and all of Surf Rd and Ocean Grove Ave.
- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will shadow the Esplanade footpath in mid winter (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway** shadows the west side of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.
- No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.

**Further I object to the following matters in Cronulla and Sutherland Shire.**

- Monro Park is shadowed over approximately 30% at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will shadow the Esplanade footpath in mid winter (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at 3-13 Kingsway shadows the west side of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.
- No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.

**Further I object to the following matters in Cronulla and Sutherland Shire.**

*Any new development in the Mall would need access via Surf Lane and Surf Lane cannot handle any more traffic given delivery trucks and garbage trucks block the lane constantly.*

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover all of the Mall and all of Surf Rd and Ocean Grove Ave.
- Monro Park is shadowed over approximately 30% at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will shadow the Esplanade footpath in mid winter (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at 3-13 Kingsway shadows the west side of the Mall at 9am winter.

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover all of the Mall and all of Surf Rd and Ocean Grove Ave.
- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will **shadow the Esplanade footpath in mid winter** (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway shadows the west side** of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- **No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.**
- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**

*There is not enough allowance for  
parking for visitors.  
Traffic flow is stuffed!*

- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will **shadow the Esplanade footpath in mid winter** (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway shadows the west side** of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- **No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.**
- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**

2013 Sutherland Shire Draft Local Environmental Plan IMPACT ON CRONULLA MALL

**Cronulla Mall is a key tourist attraction for the Shire and must be protected from obtrusive overdevelopment causing overshadowing and wind tunnel effects.**

**HIGHER BUILDINGS IN THE MALL WILL CAUSE THE FOLLOWING EFFECTS:**

- 9am winter and 3pm winter shadows cover all of the Mall and all of Surf Rd and Ocean Grove Ave.
- **Monro Park is shadowed over approximately 30%** at the northern end all day during mid winter.
- The higher 20m buildings along Ozone St will **shadow the Esplanade footpath in mid winter** (see 3pm shadows) between North Cronulla and South Cronulla.
- Building across from Mall at **3-13 Kingsway shadows the west side** of the Mall at 9am winter.

**I object to the following for Cronulla Central in the Sutherland Shire LEP.**

- **No high rise development in the Mall until the public is provided with satisfactory Shadow diagrams to protect solar access and wind tunnel studies.**
- **No development to take place in Cronulla before proper parking and traffic studies have been completed and infrastructure plans in place.**

**Further I object to the following matters in Cronulla and Sutherland Shire.**
