CARTER STREET URBAN ACTIVATION PROJECT - Acoustic Setups

This letter confirms that an acoustic review of the proposed Carter Street Urban Activation Project has been conducted by this office and the currently proposed 40m setback from the M4 roadway is not required to ensure suitable internal acoustic criteria are achieved.

Providing suitable façade acoustic treatments are include in the building's design, such as upgraded acoustic glazing, the resulting acoustic amenity of future residential premises within a 40m setback will be acoustically acceptable.

Regards

We trust this information is satisfactory. Please contact us should you have any further queries.

Yours faithfully,

A handwritten signature in dark ink that reads 'B.G. White.'.
