**RE: Area 20 Precinct, North West Growth Centre**

Dear Paul,

Thank you for your correspondence regarding the exhibition of Area 20 Precinct, North West Growth Centre.

Sydney Water in principle supports the proposed planning control amendments of the State Environment Planning Policy (Sydney region Growth Centres) 2006.

**Stormwater and Water Cycle Management**

The revised planning for Area 20 proposes the removal of Sydney Water as the acquisition authority for trunk drainage. This is consistent with our current position regarding further trunk drainage acquisitions in Rouse Hill.

Blacktown City Council will acquire and manage the creek and trunk drainage corridor in this area. Sydney Water requests that Council considers for consistency the content of the current Sydney Water Plan of Management for trunk drainage land at Rouse Hill when developing their plans of management for this area.
