Dear Sir / Madam,

### **Submission in relation to the draft Riverstone East precinct plan**

It has been apparent for some years throughout the planning of the North West Growth Centre, now the North West Priority Growth Area, that some new names for localities would be required in due course.

When it was rezoned, the area immediately east of the Riverstone East precinct was referred to as "Area 20", presumably in the expectation that one or more permanent locality names would be determined in the future.

Similarly, within the Riverstone East precinct the North West Rail Link, now Sydney Metro Northwest, station has been referred to as "Cudgegong Road" on an interim basis.

A number of constituents and stakeholders have asked me over recent years about the final names for these localities. I have advised that the formal naming process is undertaken by the Geographic Names Board after an appropriate local consultation process undertaken by the relevant local council.

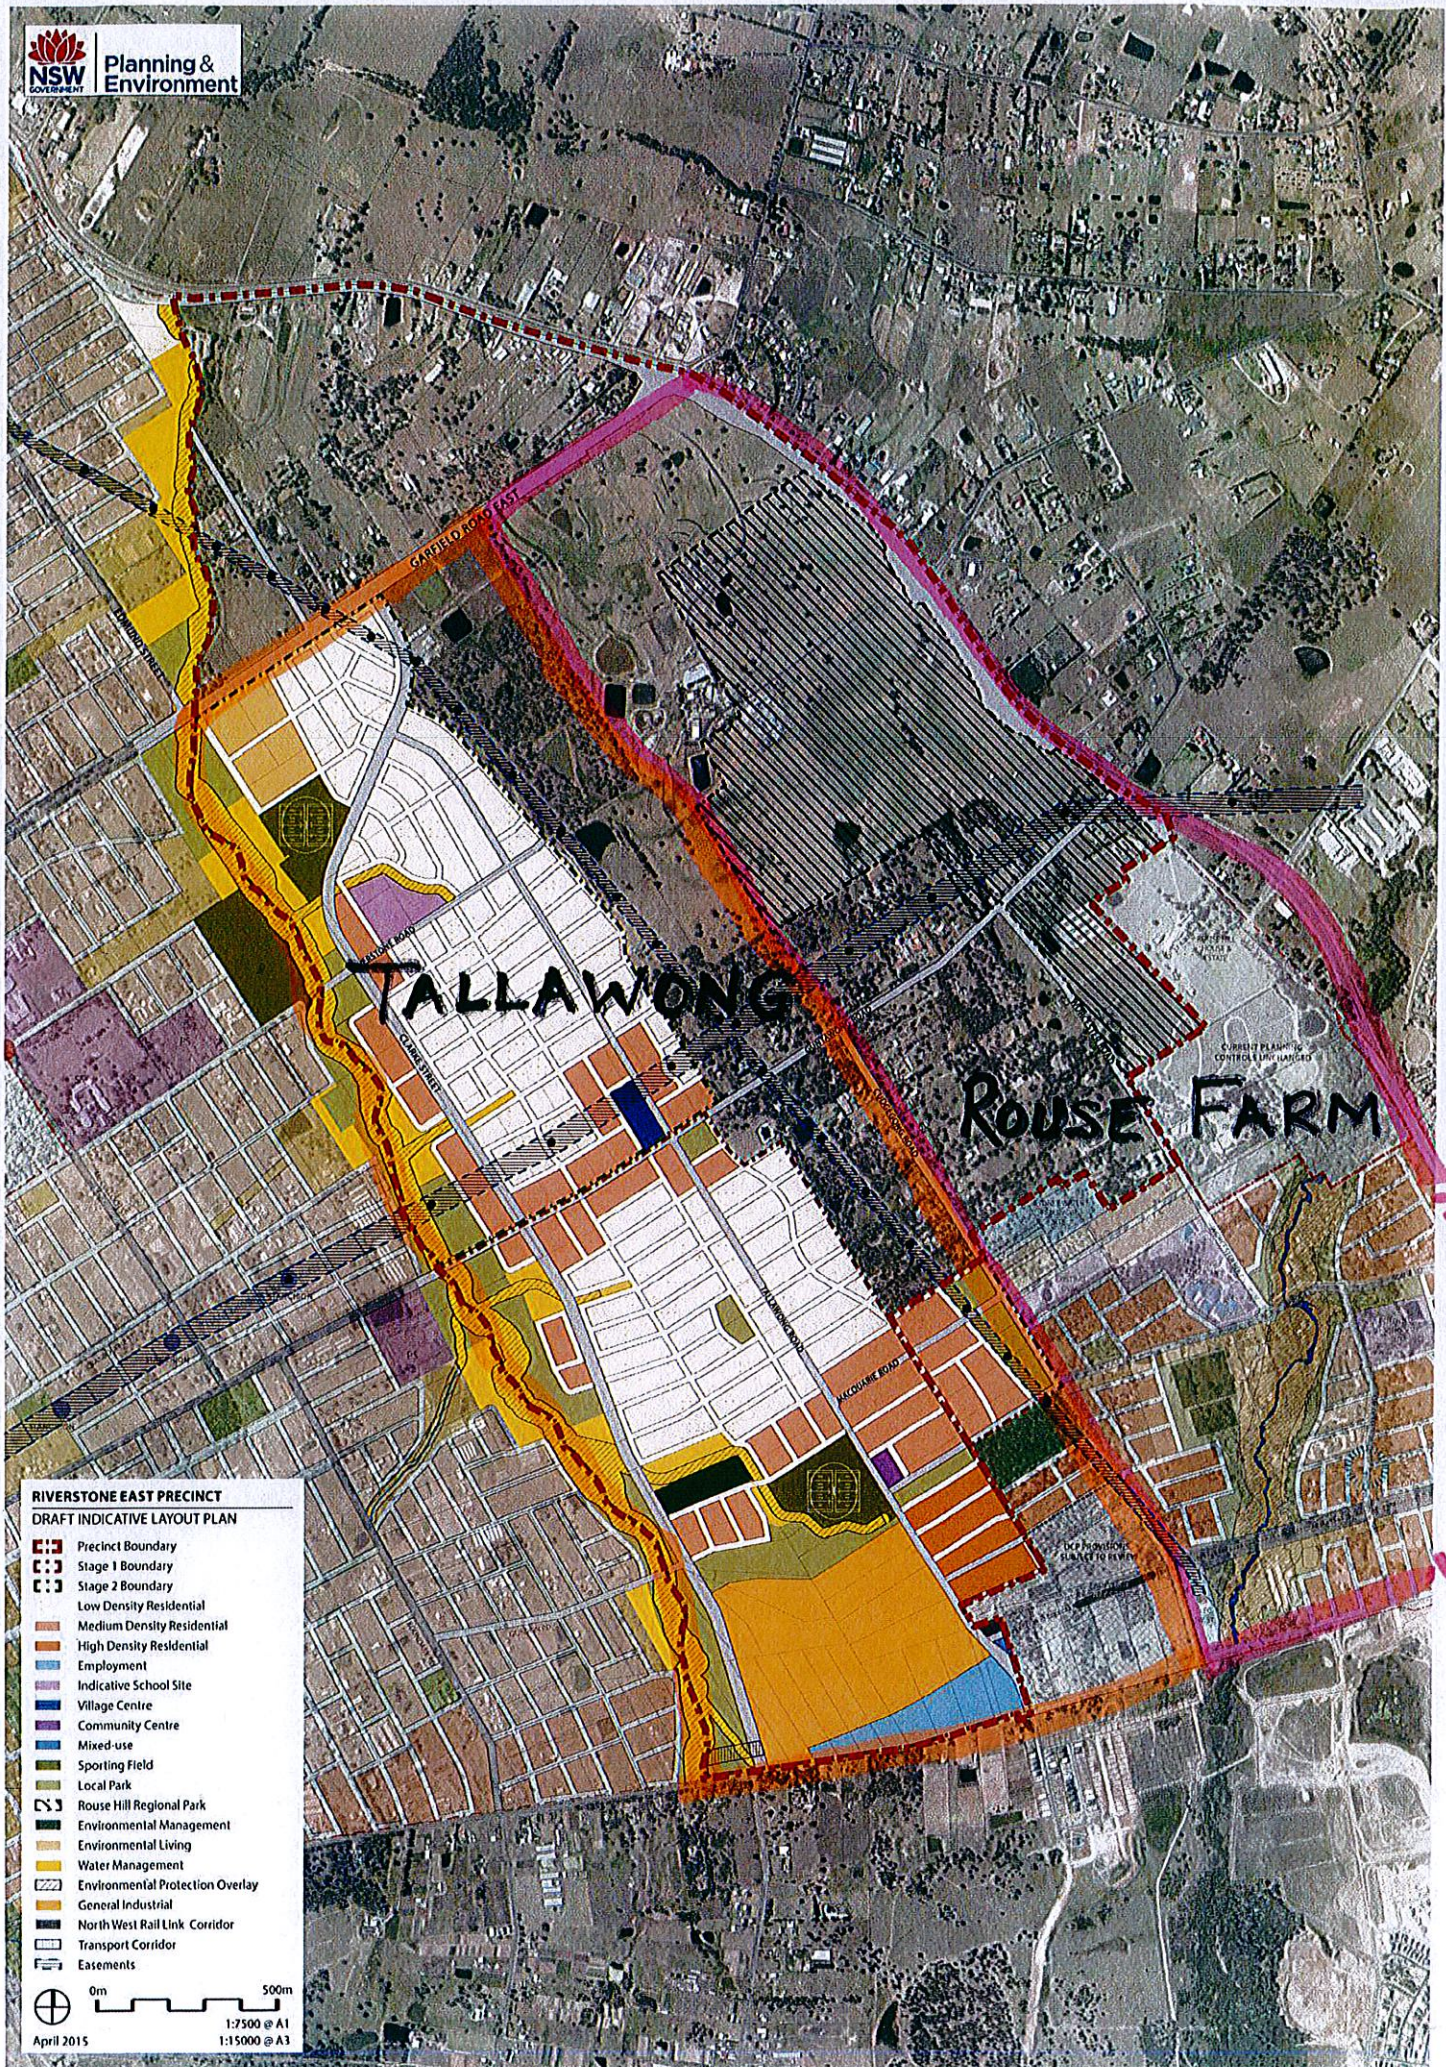

To serve as a catalyst for such a process I wish to submit the names of "Tallowong" and "Rouse Farm" as suggestions for the areas within Riverstone East precinct and Area 20 precinct roughly west and east of Cudgegong Road respectively. A map indicating possible boundaries of these areas is attached.

I make no presumption that the community will necessarily support these suggestions, but I do believe the exhibition of this precinct plan to be a timely opportunity to initiate this discussion.

I will also write to Blacktown City Council to make these suggestions so that it may initiate community consultation should it see fit to do so.

Yours sincerely,

Kevin Conolly MP
