21st October 2015

Dear Sir,

**RE: EXHIBITION OF DRAFT PLANS TO REZONE LAND NEAR BURLEY RD AND GREENWAY
PLACE HORSLEY PARK.**

Our names are Michael and Mary Micallef and we live at 384-390 Horsley Rd Horsley Park, across the road from the rezoning site, and have done so for 50 years.

We have lodged submissions in the past about this development and how worried we were of its impact on us.

We think that re-zoning this parcel of land, to rural residential, is a good idea. It will move the industrial development away from existing residents making it less of an impact on them and us.

From where we live the industrial development will be mostly out of sight. This is a great relief to us.

We are concerned as to where about the intersection for the new rural residential might be. We have noticed on one map, that the entrance is directly opposite our house. We are concerned about the dangers of an intersection right in front of our house and the car headlight glare at night.

In conclusion , the re-zoning of this land is a great idea and is a fair outcome for all concerned.

Yours faithfully

Michael and Mary Micallef
